MARKS)

41. **The diagram below shows a blood vessel. Use it to answer the questions that follow.**

R

a) Name the type of blood vessel shown above.

b) Name the structure marked R in the blood vessel.

c) How are structure R useful in the blood vessel?

-
- d) Give one example of the above type of blood vessel in the human body.
-
42. a) Give two reasons for keeping poultry at home.
i) _____
ii) _____
b) Write any two systems of keeping poultry.
i) _____
ii) _____
43. a) State ant two effects of heat on matter.
i) _____
ii) _____
b) Name two state of matter that transfer heat by convection.
i) _____
ii) _____
44. a) What is the main function of leaves to a plant?

b) What role is played by chlorophyll during photosynthesis?

c) Give two ways plants with weak stems climb other.
i) _____
ii) _____
45. a) Besides decomposition, name the process of soil formation.

b) Which component of soil is formed by decomposition?

c) Name any one organism that helps in the decomposition process.

d) Give one practice that make soil lose its fertility.

46. ***The diagram below is of a mosquito larva. Use it to answer questions that follow.***

- a) Name the mosquito that develops from such a larva.

- b) Which disease does the mosquito you have named spread to humans?

- c) State two ways of controlling the stage of the mosquito shown above.
i) _____
ii) _____
47. a) Name any two childhood immunisable diseases controlled by DPT vaccines.
i) _____
ii) _____
- b) How is DPT administered to children?

- c) Besides DPT, mention any other vaccine administered to infants.

48. a) Give one bird under each of the following groups of birds.
i) scavenger _____
ii) preying bird _____
- b) In which way are scavenger birds useful in the environment?

- c) Give the difference between a predator and a scavenger.

i) _____

- ii) _____
- b) What does shearing refers to in sheep rearing?

- c) How can a farmer control diseases in sheep?

50. ***In an equipment, salt is mixed with water and stirred until it dissolved to form a solution.***

- a) What do the following act as in the experiment?
 - i) salt _____
 - ii) water _____
- b) Why did the salt dissolve in water?

- c) Name any one substance that could be used instead of sugar.

51. a) Which class of food prevents Kwashiorkor among children?

- b) State the element of PHC that prevent deficiency diseases.

- c) Give any two vitamin deficiency diseases.
 - i) _____
 - ii) _____

52. ***The diagram below shows part of the alimentary canal of man. Use it to answer questions that follow.***

- a) Name part marked C.

b) In which part of the alimentary canal does absorption of food take place?

c) Identify the digestive juice produced by part D.

d) Give one disorder of the above system.

53. a) What is the meaning of germination?

b) Mention any two condition seeds need to germinate.

i) _____

ii) _____

c) Why do seeds fail to germinate when they are put in very dry soil?

54. ***In the table below, part A shows term used to describe sound and part B has the meaning of the terms. Use the meaning in part B to match the terms in A.***

Part A	Part B
Pitch	Reflected sound
Echo	Number of vibration per second
Frequency	Loudness or softness of sound
Volume	Highness or lowness of wind

a) Pitch _____

b) Echo _____

c) Frequency _____

d) Volume _____

55. a) Give the meaning of first aid?

- b) Identify the first aid item used to;
- i) clean wounds _____
- ii) managing fractures _____
- c) State one reason for giving first aid to casualties.
- _____
