

FOREWORD AND RECOMMENDATION

COVID 19 pandemic caused a disruption in our education system and made learners missed schooling for two years of 2020 to 2021 schooling period. This has created a need to rethink what and how learners will be taught when schools open.

The Kolfram Educational Services Kampala has developed a series of teaching materials for pre-primary, primary and secondary schools in Uganda. These materials are prepared in accordance to the abridged curriculums right from primary two up to senior six.

“Special thank goes to all the board of directors and staff of Kolfram Educational Services Kampala for the great work done.”
Congratulations

This material presents a selection of priority learning competences and concepts, along with psychological support, which should be focus of instruction in the 2022 school year in order to achieve learning recovery.

This material is not a departure from the existing old curricula for this level but is a modification of the same with a purpose of recovering the lost learning time with maximum learning loss. They have been packed for all primary and secondary classes in Uganda including **pre- primary, primary one, senior one and senior five** that are still using the old standard curriculums.

I therefore, recommend this material and ask all stake holders, educational fraternity to support its implementation as a strategic intervention towards the mitigation of the effects of COVID 19 pandemic on the education system. The effective implementation of this material by the implementors will be a great milestone towards the recovery of lost learning time and giving hope and confidence to learners and teachers.

HON. Janet K. Museveni

First Lady and Minister for Education and Sports

MESSAGE FROM THE DIRECTOR NCDC- UGANDA

Dear reader, having gone through this book reasonably, I strongly recommend you to adopt its implementation with confidence as it covers a wide range of everyday real life experience carefully selected for this level in accordance to the abridged curriculum.

Dr. Grace K. Baguma

**DIRECTOR,
NATIONAL CURRICULUM DEVELOPMENT CENTRE**

PREFACE

The Standard Kolfram in Use; Abridged Curriculum, pupil's book 6 Social Studies Workbook is purely based on the New revised Primary six Syllabus 2021.

It is one of the **60** books set in the same series set to solve the challenges caused by Covid 19 pandemic in teaching and learning in primary and secondary schools. Other books in the series cover all the classes and other subjects which do exist in Ugandan schools.

Features of this book

- ✓ *This book is simple and easy to use.*
- ✓ *The book has the most current content and information as per the academic year 2022.*
- ✓ *Topics and explanations have been simplified to suit the level and the age of the learners.*
- ✓ *The topics and subtopics in the book have been logically and systematically arranged to guide learners in their own revision time.*
- ✓ *The languages used in the book are learner friendly.*
- ✓ *The book contains a number of assessment exercises and tests after every lesson which guides both the teachers and the learners using the book in preparation for the examinations.*
- ✓ *Hundreds of live examples from the Past Primary Leaving Examinations are also included in this book as lesson activities.*

We hope the content in this book will not only amuse or attract the users but also play a tremendous role in solving the teaching and learning problems in Social Studies in both urban and rural private and government primary schools in Uganda.

“Let’s Discover Our Potentials”

TOPIC 1: THE EAST AFRICAN COMMUNITY

East Africa lies between lines of latitude $4\frac{1}{2}^{\circ}\text{N}$ to about $12\frac{1}{2}^{\circ}\text{S}$ of the Equator and lines of longitude 29°E to 42°E of the Greenwich meridian.

The East African region is made up of three countries and these are;

1. Uganda
2. Kenya
3. Tanzania

Rwanda and Burundi are geographically located in central Africa.

NB: Rwanda and Burundi are members of the East African Community but not geographically located in the East African region.

East Africa includes islands in the Indian Ocean namely.

1. Zanzibar
2. Pemba
3. Mafia

EAST AFRICA AND HER NEIGHBOURS

DIRECTION	COUNTRY	CAPITAL CITY
North	South Sudan	Juba
	Ethiopia	Addis Ababa
South	Mozambique	Maputo
West	DRC	Kinshasa
	Rwanda	Kigali
	Burundi	Bujumbura
North east	Somalia	Mogadishu
South West	Malawi	Lilongwe
	Zambia	Lusaka

- Indian Ocean borders the Eastern part of East Africa.
- Major latitude that crosses East Africa is the equator passing through Uganda and Kenya.
- The equator in Uganda crosses Lake Victoria and George.
- The districts crossed by the equator include: Wakiso, Kasese, Kalungu, Kiruhura, Ibanda
- The equator divides Kenya into almost two equal halves

The major islands that are found at the coast of East Africa.

1. Zambia
2. Pemba
3. Mafia

ACTIVITY

1. East African region is made up of three countries, name any **two** of them.

2. In which part of Africa are Rwanda and Burundi geographically located?

3. Mention any **two** islands in the Indian Ocean said to be the part of East Africa

LESSON

Land locked countries in East Africa

- ✓ Land locked countries are countries which have no seaport/or coastline.
- ✓ These are the countries which do not have direct access to their own sea ports.
- ✓ Land locked countries are countries without the coastlines.

A Seaport is a place at the coast where ships anchor

East African country which is landlocked

1. Uganda

East African's neighbours that are landlocked.

1. South Sudan
2. Zambia
3. Malawi
4. Ethiopia
5. Rwanda
6. Burundi

The seaports which Uganda, Rwanda and Burundi use to import and export their goods.

1. Port Mombasa in Kenya
2. Port Dar-es-Salaam in Tanzania

3. Port Tanga

4. Port Matadi in Democratic Republic of Congo

A country with its own sea port is called a **coastal country**.

Examples of coastal countries in East Africa

1. Kenya
2. Tanzania

How Port Mombasa is important in the economic development of landlocked countries

It is used for handling land locked countries' imports and exports.

Uganda mostly imports her goods through port Mombasa because port Mombasa is nearer to Uganda than other sea ports.

Imports are goods that are brought in a country from other countries

Examples of imports

Vehicles Uganda imports from Germany, telephones, computers, clothes, drinks

Exports are goods a country sells to other countries

Examples of exports

Food, minerals, electricity

ACTIVITY

1. What are land locked countries?

2. What is a seaport?

3. Name any one landlocked country in East Africa.

4. Mention any **two** neighbouring countries to Ugandans which are landlocked.

i) _____

ii) _____

5. Name any **two** seaports which Rwanda use to import and export their goods.

i) _____

ii) _____

6. In which country is Port Matadi found?

7. Define the word coastal country.

8. Mention any **two** examples of coastal countries in East Africa.

i) _____

ii) _____

9. How is Port Mombasa important in the economic development of Uganda?

LESSON

problems faced by landlocked countries in East Africa

1. High taxes are charged on imports and exports
2. There is limited trade with the rest of the world.
3. High prices for imported goods.
4. High transport costs on imports and exports.

5. Goods delay in transit/on the way.

How landlocked countries can solve their problems

1. Through maintaining a good relationship with neighbours that have seaports.
2. Through joining common markets.
3. By using various sea ports when importing goods.
4. By promoting domestic industrial production
5. By improving security along the high ways.
6. Through developing air transport.

Independent African countries which were created recently

- i) Eritrea from Ethiopia
- ii) South Sudan from Sudan

7. How Ethiopia became a landlocked country

By creating Eritrea as an independent country.

Reasons why Uganda should cooperate with her neighbours

1. To get goods which she can't produce locally.
2. To widen market for her goods.
3. To use her neighbours' sea ports to handle her exports and imports.

ACTIVITY

1. Suggest any **two** problems Uganda faces as a result of being a landlocked country.
i) _____
ii) _____
2. State any **two** ways how landlocked countries can solve their problems.
i) _____
ii) _____
3. Mention any **two** economic advantages Kenya has over Uganda.
i) _____
ii) _____
4. Name the independent African country which was created from:
(a) Ethiopia _____
(b) Sudan _____

LESSON

LOCATION OF PLACES USING LINES OF LATITUDE AND LONGITUDE

- ✓ **Grid reference** is the method of locating places on a map using lines of latitude and lines of longitude.
- ✓ Grid refers to the network of horizontal and vertical lines used as references coordinates to locate places on a map.

MAJOR LINES OF LATITUDE

- **Lines of latitude:** These are imaginary lines drawn on a map running from East to west.
- **Latitude:** The distance North or South of the Equator in degrees.

The major line of latitude on the globe is known as the Equator. it is marked 0°.

The Equator divides the Earth into two equal parts known as hemispheres i.e.

- ✓ Northern hemisphere

- ✓ Southern hemisphere

A globe indicating the Northern and Southern hemisphere.

A globe indicating the Northern and Southern hemisphere

Other important lines of Latitude.

1. The Arctic Circle $66\frac{1}{2}^{\circ}\text{N}$
2. The Tropic of Cancer $23\frac{1}{2}^{\circ}\text{N}$
3. The Tropic of Capricorn $23\frac{1}{2}^{\circ}\text{S}$
4. The Antarctic Circle $66\frac{1}{2}^{\circ}\text{S}$

Importance of the Equator.

- ✓ It is used to locate places on a map.
- ✓ It determines the climate of an area.

Why the Equator is marked zero (0°) degrees

- ✓ It's starting point for measuring lines of Latitude North or South.

How lines of latitude and longitude are important to a map reader?

They are used to locate places on a map.

How latitudes help to locate places

- ✓ They help to determine how far a place is north or south of the equator.

How latitudes help to determine climate of an area

1. Places near the equator receive more sunshine than those far from the equator.
2. Areas near the equator are hotter than areas far from it.
3. Areas near the equator receive more rainfall than areas far from it.

East African countries crossed by the Equator.

1. Uganda
2. Kenya

Other African countries crossed by the equator

3. Gabon
4. Congo
5. Democratic Republic of Congo.
6. Somalia

ACTIVITY

1. Define grid reference.

2. What term is used to refer to the network of horizontal and vertical lines used as references coordinates to locate places on a map?

3. What name is given to the imaginary lines drawn on a map running from East to west?

4. Name the major line of latitude on the globe.

5. State the reason why Equator is marked 0°

6. Mention any **two** importance of the Equator

i) _____

ii) _____

7. How can latitudes help to locate places on a map?

8. In which way can latitudes help to determine climate of an area?

9. Mention any **two** East African countries crossed by the Equator.

LESSON

MAJOR LINES OF LONGITUDE / MERIDIANS

- **Lines of Longitude:** are imaginary lines drawn on a map running from North to South.
- **Longitude:** The distance East or West of the Greenwich meridian.

The major line of longitude on the globe is the Greenwich meridian/Prime meridian.

Greenwich meridian/Prime meridian is the line of longitude marked 0° .

The Greenwich meridian is called so because it crosses a town called **Greenwich** in England.

NB: The capital city in Africa crossed by the Greenwich Meridian is **Accra** in Ghana.

The Prime meridian divides the Earth into Eastern and Western hemispheres.

Draw the globe to show the Eastern and Western hemispheres.

Major lines of longitude.

1. The Prime meridian/ Greenwich meridian (0°)
2. The International dateline. (180° E or W)

Importance of Longitudes

The Greenwich/meridian/ prime meridian.

- ✓ To locate places on a map.
- ✓ It is used to tell international time.

The International Dateline:-

- ✓ To determine dates
- ✓ To separate one day from another.

Why the Prime meridian is marked 0°

- ✓ It is the starting point for measuring lines of longitude East or West.
- ✓ It is a centre line on a globe.

Importance of lines of longitude on a map.

- ✓ They enable to tell time.
- ✓ They help to determine time zones.
- ✓ They help in locating places on the map.

Similarity between lines of latitude and longitude.

- ✓ Both are used to locate places on a map.
- ✓ Both are imaginary lines drawn on a map.

Difference between lines of latitude and longitude.

Lines of latitude are imaginary lines drawn on a map running from East to West while longitudes are imaginary lines drawn on the map running from North to South.

The African countries crossed by the Greenwich meridian

1. Ghana
2. Burkina Faso
3. Mali
4. Algeria

ACTIVITY

1. How are lines of latitude and longitude important to a map reader?

2. Name the imaginary lines drawn on a map running from North to South?

3. name the line of longitude which divides the Earth into Eastern and Western hemispheres

4. Mention any **two** major lines of longitude.
i) _____
ii) _____
5. State any **two** Importance of lines of longitude on a map.
i) _____
ii) _____
6. Why is the Prime meridian marked 0°

7. State any **two** similarities between lines of latitude and longitude.

i) _____

ii) _____

8. What is the main difference between lines of latitude and longitude.

LESSON

TIME ZONES IN EAST AFRICA

These are places on the globe with the same standard time.

- ✓ A time zone is an area/region with the same standard time.
- ✓ Different regions of the world have different time zones according to the distance from the Prime meridian.
- ✓ Places which are in the same time zone have the same standard time.
e.g. Uganda, Kenya and Tanzania are in the same time zone, and so have the same standard time. (**East Africa Standard Time**)
- ✓ East Africa lies at longitude 45° while Rwanda and Burundi are 30° E of the Greenwich meridian.
- ✓ This is the main reason why Rwanda and Burundi doesn't experience the same time with Uganda yet they are neighbours.

Using the Prime meridian to tell the international time.

The rotation of the earth on its axis causes days and nights.

The earth makes one complete rotation of 360° in one day (24hours).

Therefore, it rotates through an angle of 15° in every 1hour (60min).

1. Every 15° make an hour, therefore $1^{\circ} = 4$ minutes.
2. The world is divided into 24 divisions called Time Zone and each time zone is 15° apart.
3. **East** of the Greenwich meridian, we add time while **west** of the Greenwich, we subtract time.
4. East Africa's time zone is called East African standard time (**EAST**)

ACTIVITY

1. Write the following in full
(a) GMT _____
(b) I.D.L _____
2. What name is given to the places on the globe with the same standard time?

3. Why do Uganda, Kenya and Tanzania have same standard time?

4. Write EAST in full.

5. State the main reason why Rwanda and Burundi doesn't experience the same time with Uganda yet they are neighbours.

6. Name the time zone in East Africa.

LESSON

Calculating time using time zones

i) Every time zone (15°) Eastwards, we gain/ add an hour because the sun rises from the East while every time zone (15° W) westward we lose (subtract) an hour.

Example

1. If it is 5.00 a.m. at Greenwich what time is it in East Africa is 45° E of the Greenwich?

working

GMT = 5.00 a.m.

$15^{\circ} = 1 \text{ hr.}$

$45^{\circ} \text{ E} = \underline{45} \text{ 3hrs}$

15

5.00 a.m.

+ 3.00 hrs

8.00 a.m.

It is 8:00 a.m. in East Africa.

2. It is 6:00 p.m. in Accra Ghana. What time is it at a place X which is 30° N of the Greenwich?

GMT = 5.00 a.m.

$15^{\circ} = 1 \text{ hr.}$

$45^{\circ} \text{ E} = \underline{45} \text{ 3hrs}$

15

5.00 a.m.

+ 3.00 hrs

8.00 a.m.

It is 8:00 a.m. in East Africa.

3. If it is 7:00 a.m. at Greenwich meridian what time is it at place y which is 60° E at the Greenwich meridian?

GMT = 7:30 a.m.

$15^{\circ} = 1 \text{ hr (1:00hr)}$

$60^{\circ} \text{ E} = \underline{60} = 4:00 \text{ hrs}$

15

= 7:30

+ 4:00 hrs

11:30 a.m.

It is 11:30 a.m. at Place Y

4. If it is 9:00p.m. In London, what time is it at place x which is 45° W of the Greenwich meridian?

GMT = 9:00 pm.

Location = 9:00 pm.

$15^{\circ} = 1 \text{ hr}$

$45^{\circ} = \underline{45}$

15

= 3:00 hrs
9:00 p.m.
-3:00 hrs

6:00 p.m.

It is 6:00 p.m. at Place X

ACTIVITY

1. Why doesn't Rwanda experience the same time with Uganda yet they are neighbours?

2. What is meant by the term time Zone?

3. The time in Accra Ghana is 9.00am. What will it be in Somalia which is 30°E?
4.
5. The time Dodoma is 11:45am. What time will it be in a place which is 60° W.
6.
7. The time in Ghana is 10:00am. What time will it be in Uganda which is 45° East?
8.
9. The time in Accra is 1:00p.m. What is the time in Gabon which is 30° East?
10.
11. It is 6:00am in Accra. What time will it be in Liberia 30° West?
12.
13. Find the time in East Africa which is 45° if it is 1:00pm at GMT
14.
15. What time will it be in country B which is 60°W if it is 5:00pm in Ghana?
16.

LESSON

MOVEMENTS OF THE EARTH

Rotation of The Earth

- The Earth rotates on its axis from west to East.
- An axis is an imaginary line that cuts through the Earth from the north pole to the south pole.
- It takes 24 hours (1 day) for the Earth to make a complete rotation.
- The rotation of the Earth causes day and night.
- It also causes deflection of winds and ocean currents.

Revolution of the Earth

Revolution of the earth is the movement of the earth around the sun.

- ✓ It takes 365 $\frac{1}{4}$ days for the earth to revolve around the sun
- ✓ This is called **an ordinary year**.
- ✓ The fourth year of every four years has 366 days
- ✓ This is called **a leap year**
- ✓ The revolution of the earth causes seasons i.e. Summer, winter, autumn and spring.
- ✓ On 21st March and 23rd September, the sun is directly overhead the Equator.
- ✓ On these two dates the earth gets equal days and nights i.e. Equinox.
- ✓ On 21st June, the sun is overhead the tropic of cancer
- ✓ The northern hemisphere will have the summer season while the southern hemisphere will have winter.

- ✓ On 22nd December the sun is directly overhead the tropic of Capricorn. The southern hemisphere will experience summer while the Northern hemisphere will experience winter.

ACTIVITY

1. What causes day and night?

2. State any **two** effects of the rotation of the earth.

i) _____

ii) _____

3. What is equinox?

4. When is the sun over head the equator?

5. When is the sun over head the tropic of cancer?

6. On which date in 2023 shall we expect the sun to be overhead tropic of Capricorn?

COMMON MARKETS IN EAST AFRICA

LESSON

Common market

- This is an economic grouping formed by countries to promote common interest especially trade among member states.
- A group of countries that have accepted to work together with the major aim of promoting trade.

Another name for a common market is **Regional Economic Grouping**.

Examples of common markets in East Africa

1. **EAC** – East African Community
2. **COMESA** – Common Market for East and Southern Africa
3. **IGAD** – Inter-Governmental Authority on Development
4. **SADC** - Southern African Development Community. It is only Tanzania which is a member.

Characteristics of common markets.

1. There are common taxes charged on imports and exports among member countries.
2. There is free movement of goods among member countries.
3. There is free movement of labour among member countries.
4. There is market forum for goods produced in member states.

Conditions necessary for the success of a common market/ regional economic grouping

1. Countries should be geographically close to another.
2. All member countries should have political stability and harmony.
3. All member countries should be ready to respect/honour the treaties of the common market.
4. Countries should respect the territorial boundaries of the neighbouring countries
5. All member countries should have similar or common currencies.

ACTIVITY

1. What is Common market?

2. Give another name for a common market.

3. Write these short forms in full.

a) EAC

b) COMESA

c) IGAD

d) SADC

4. Mention any **two** characteristics of common markets.

i)

ii)

5. State any **two** conditions necessary for the success of a common market/ regional economic grouping

i)

LESSON

The East African Community

The East African Community was a common market which united the three East African countries.

These countries were Uganda, Kenya and Tanzania.

East African Community States, Size And Capital Cities

COUNTRY	SIZE (KM ²)	CAPITAL CITY
Tanzania	945,087	Dodoma
Kenya	580,367	Nairobi
Uganda	241,038	Kampala

The East African Community is currently made up of seven member countries namely;

Uganda, Kenya, Tanzania, Rwanda, Burundi, South Sudan and Democratic Republic of Congo

Symbols of the countries of the present East African Community.

1. National flag

2. National Anthem

3. National Coat of Arms

4. National constitution

5. Parliament

6. National Emblem

7. National Motto

8. Official seal of the community

The East African Community flag

The East African Community emblem

Meaning of features found on the East African Community Flag and the emblem

1. The olive branch is a symbol of peace in East African Countries.

2. Blue background(lake Victoria) signifying the unity of the East African Community partner states
3. Colours(white, black, green, yellow, red all represent the colors of flags of the member states.
4. Handshake precludes and welcomes new members which will be admitted in east African community.
5. Logo for the East African Community.

Places where it is found

1. In offices
2. In schools
3. In police posts
4. In barracks

The East African Community Court of Arms

It was designed by Ramadhani Mwinyi.

ACTIVITY

1. Name the common market which united the three East African countries.

2. Name the largest country in East Africa.

3. Name the capital city of these countries:
a) Tanzania: _____
b) Kenya: _____
4. Mention any **two** member states of the current East African Community.
i) _____
ii) _____
5. State any **two** symbols of the countries of the present East African Community.
i) _____
ii) _____
6. State any **two** attributes of the East African community which have the Olive branches in them.
i) _____
ii) _____
7. What does the olive branch on the East African community flag mean.
8.
9. State any **two** places where East African community flag is found.
i) _____
ii) _____
10. Who designed East African Community Court of Arms?

LESSON

East African Community Anthem

Wimbo wa Jumuiya ya Afrika Mashariki' are Swahili words meaning East African community Anthem.

It was composed by Sir **Richard Kadambi** from Kenya and officially adopted on 3rd December, 2010.

East African community Anthem

SWAHILI VERSION	ENGLISH VERSION
WIMBO WA JUMUIYA YA AFRIKA MASHARIKI	EAST AFRICAN COMMUNITY ANTHEM
E Mungu twaomba Uilinde Jumuiya ya Afrika Mashariki Tuwezeshe kuishi kwa amani Tutimize na malengo yetu	Oh God we ask you to protect Our East African community Enable us to live in peace And accomplish our tasks

Jumuiya yetu sote tuilinde
 Tuwajibike tuimarike
 Umoja wetu ni nguzo yetu
 Idumu Jumuiya yetu

Uzalendo pia mshikamano
 Viwe msingi wa umoja wetu
 Natulinde uhuru na amani
 Mila zetu na desturi zetu

Viwandani na hata mashambani

Organizations that existed before the East African Community.

1. The East African High Commission
2. East African Common service organization

The East African High Commission

- The East African High Commission was formed in 1948 and collapsed in 1961.
- The headquarters of the East African High Commission were at Nairobi Kenya .

Departments run by the East African High Commission

1. East African Railways and harbours
2. East African literature bureau
3. East African posts and telegrams
4. East African income tax department
5. Higher education
6. Research institution.

The East African Common Services Organization

- In 1961, Tanganyika withdrew from the East African High Commission after becoming independent.
- There East African High Commission therefore collapsed.
- The East African Common Services Organization was formed in 1961 to replace the East African High Commission in the very same year.
- The three countries formed the East African Common service organization with its headquarters in Nairobi (Kenya)
- The headquarters of the East Africa Community were later transferred from Kenya to Arusha-Tanzania basing on the complaints from Uganda and Tanzania that Kenya was over benefiting than the other East African countries.
- It was in operation from 1961-1967. The heads of state formed yet another organization called the **East African community**.

ACTIVITY

1. Name any **two** organizations that existed before the East African Community.
 - i) _____
 - ii) _____
2. Where was the headquarters of the East African High Commission.

3. Mention any **two** departments run by the East African High Commission.

10. How did the discovery of fire enable the early man to live in caves?

LESSON

MIDDLE STONE AGE (Metheolithic period)

- ✓ It was during this period that the early man started making sharper stone tools.
- ✓ People learnt to fix stone tools on wooden handles.
- ✓ People made better hunting tools like bows and arrows.
- ✓ The most important discovery of man during this period was **Farming**.
- ✓ Early man tamed dogs as the first animal.

Uses of the dog to early man

1. Helped early man to carry out hunting.
2. It gave security to early man.

3. Helped man to tame other animals.

The discovery of farming marked the end of the **Middle Stone Age** and the beginning of the **New Stone Age period**.

NEW STONE AGE PERIOD (Neolithic Period)

- ✓ People started living a settled life.
- ✓ People started living in simple huts.
- ✓ People discovered farming.

How farming improved the life of early man.

- i) Man got food from gardens instead of gathering.

8. What marked the end of Stone Age period in human history.

LESSON

IRON AGE

The discovery of iron marked the end of the Stone Age period. During this period, man learnt how to make tools out of iron.

Hand axe	Bolas	Spear	Cleaver
			

How the discovery of Iron improved the early man's way of living

- ✓ He made better hunting tool and farm tools.
- ✓ He made better weapons for protection.
- ✓ The early man was able to build permanent houses.
- ✓ Food production increased which minimized famine.

Problems faced by the early man.

1. Early man lacked better tools and weapons.
2. They used to eat raw food
3. The early man experienced bad weather conditions.
4. The early man had no clothes. (Walked naked)

Why the early man settled along the river banks.

1. He wanted to easily trap animals that went to rivers to drink water.
2. He wanted to get water easily for irrigation and home use.
3. He wanted to use the fertile soils for farming.

ACTIVITY

1. Why did the early man called the stone age man?

2. How did the discovery of iron improve the early man's way of living?

3. Mention any **two** examples of stone tools made by the early man.
i) _____

STONE AGE SITES/ HISTORICAL SITES

These were the settlement areas of the early man.

These were the places where early man used to live.

MAP SHOWING STONE AGE SITES IN EAST AFRICA.

Importance of Stone Age Sites to the development of East Africa.

1. They attract tourists who bring in income.
2. They are used for research.
3. They provide employment to people.

Important points to note

- i). **Olduvai Gorge** in Tanzania is the largest /oldest stone age site
- ii). **Nyero rock painting** and Kondoa Stone Age site in Tanzania are known for rock painting

ACTIVITY

- ## 1. What are historical sites?

2. Name the largest old stone age site in East Africa.

3. Mention any **two** old stone age sites known for rock painting in East Africa.

- i) _____

MAJOR ETHNIC GROUPS IN EAST AFRICA

- ✓ **An ethnic group** is a group of people who share the same origin and speak related languages.
- ✓ **Tribe:** is a group of people having the same origin, culture and speaking the same language
- ✓ **Clan:** is a group of people with the same ancestor / forefather
- ✓ **Lineage:** is a series of families that someone originates from

The major ethnic groups in East Africa include:

- ✓ Cushites/ Hamites
- ✓ Nilotes
- ✓ Bantu
- ✓ Sudanese

Different ethnic groups originated from different homelands into East Africa.

Ethnic group	Cradle land
Cushites/ Hamites	Ethiopian highlands
Bantu	Cameroon highlands
River – Lake Nilotes	Bar -el- Ghazel
Plain Nilotes/high land Nilotes	Ethiopian Highlands
Sudanic	South Sudan

LESSON**General causes of tribal migrations in east Africa**

1. Internal and external conflicts among the group.
2. Wars in the cradle land.
3. Population increase which led to land shortage.
4. Lack of enough water and pasture as for the case of nomads.
5. Harsh climate.
6. Looking for fertile land for farming.
7. Due to love for adventure
8. Droughts
9. Diseases
10. Expansionism

General problems faced by early migrants

1. Resistance from indigenous people they found on the way and in places they settled.
2. Difficulty in movements which caused a lot of fatigue.
3. Attacks by wild animals and diseases.
4. Attacks by the hostile tribes
5. Thick forests made their movement difficult.
6. Difficult terrains.
7. Food and water shortage.
8. Harsh climate.

Effects of early migrations

1. They led to population increase where they settled.
2. New cultures were introduced in the areas where they settled e.g. new languages,
3. New skills of iron working and farming were introduced.
4. They led to displacement of the Bushmen.
5. They led to inter-marriages leading to formation of new races

The Cushites in East Africa

This was the first tribal group to migrate into East Africa.

The Cushites are believed to have originated from the Ethiopian highlands.

Ethiopia is located in the Horn of Africa together with Djibouti, Eritrea and Somalia.

Examples of Cushite tribes in East Africa

Uganda	Kenya	Tanzania
Bahima	-Galla	-Iraqw
Batutsi / Tutsi	-Somali	-Sandawe
Somali	-Boran	Bunguni
	-Rendille	

The Cushites introduced the idea of iron working in **East Africa** while Uganda, the idea was introduced by the **Bachwezi**.

The major occupation of the Cushites was and is still pastoralism.

Effects of the Cushites in East Africa.

- ✓ They introduced the idea of iron smelting.
- ✓ They introduced new crops in East Africa e.g. Ground nuts, and finger millet.
- ✓ They brought in livestock e.g. cattle, sheep and goats.

ACTIVITY

1. State any **two** conditions that attracted most of the ethnic groups to settle in East Africa.
 - i) _____
 - ii) _____
2. Mention any **two** causes of tribal migrations from their cradle land.
 - i) _____
 - ii) _____
3. Name the cradle land for :
 - a) Bantu

 - b) Luo speakers

 - c) Hamites

4. Mention any **two** general problems faced by early migrants.
 - i) _____
 - ii) _____
5. Name the first tribal group to migrate into East Africa

6. Mention any **two** countries in the Horn of Africa where the Cushites settled.
 - i) _____
 - ii) _____
7. Mention any **two** examples of Cushites found in:
 - a) Uganda

 - b) Kenya

 - c) Tanzania

8. Mention any **two** effects of the Cushites in East Africa.
 - i) _____
 - ii) _____

LESSON

BANTU

- ✓ The Bantu are the largest ethnic group in East Africa.

- ✓ They are a group of people who speak a common language with a suffix “ntu” while referring to a person / human being (Omuntu)
- ✓ The Bantu originated from Cameroon highlands.
- ✓ Other places where the Bantu are believed to have come from include: Around R. Congo in D.R.C. ,between R. Niger and Benue in Nigeria
- ✓ The Bantu are sub-divided into four groups:
- ✓ Western Bantu- These Bantu tribes entered East Africa through the North Western route e.g. Basoga, Baganda
- ✓ The Southern Bantu- These used the southern route to enter East Africa – e.g. Ngoni, Hehe.
- ✓ The Central Bantu- They used the central route to enter East Africa e.g. The Mjikenda, Polomo
- ✓ The Highland Bantu. – These tribes settled around highland areas e.g. – Kikuyu, Embu, Meru (in Kenya), Chagga in Tanzania & Bagisu in Uganda.

Examples of Bantu in east Africa

UGANDA	KENYA	TANZANIA
Bagishu, Banyoro,	Abagusii Kikuyu	Nyamwezi Yao
Banyankole, Baganda	Akamba Embu	Chagga Hehe
Batoro, Bakiga	Ameru Pokomo	Gogo Makonde
Basoga, Bamba	Mbere Myikenda	Sukuma Ngoni
Basamia, Banyole	Luhya	Zaramo Pogoro
Basamia,	Mijikenda	Wakuru, Bahaya
Baruli, Bagwere		Washamba

Why the Bantu mainly settled in the interlacustrine region of East Africa

1. Due to presence of fertile soils for farming.
 2. Due to presence of reliable rainfall for farming.
- To carryout fishing.

What do you understand by the term interlacustrine region?

This refers to the area located amidst the great lakes of East Africa.

The great lakes(interlacustrine region) of E. Africa.

- | | | |
|------------------|----------------|------------------|
| 1. Lake Victoria | 4. Lake Edward | 7. Lake Naivasha |
| 2. Lake Kyoga | 5. Lake George | 8. Lake Turkana |
| 3. Lake Albert | 6. Lake Eyasi | |

NB: Ngoni were the **last group** of the Bantu to migrate to East Africa.

This was because of the Shaka Zulu’s civil wars in South Africa.

ACTIVITY

1. Name the largest ethnic group in East Africa.

2. Where did Bantu originated?

3. Apart from the place stated above, mention any **two** other places where the Bantu are believed to have come.
i) _____
ii) _____
4. State any **two** examples of Bantu tribes in East Africa.
i) _____
ii) _____

5. Why did the Bantu mainly settled in the interlacustrine region of East Africa?

6. State any **two** interlacustrine regions where Bantu tribes settled.

i) _____

5. Outbreak of epidemics
6. Love for adventure
7. Search for fertile lands.

Problems faced during migration of the Bantu to east Africa.

1. Shortage of land
2. Harsh climate during movement
3. Impassable physical features.
4. Fatigue (walking long distances)
5. Language problem.
6. Impassable routes
7. Poor transport network.

Effects/results of the Bantu migration

1. Displacement of the original inhabitants
2. New skills such as iron smelting were introduced.
3. Formation of new cultures
4. There were political, social and political changes.
5. Kingdoms and chiefdoms were formed.
6. Settled farming was introduced.
7. Intermarriages leading to the formation of new tribes and cultures.

The population decreased in their cradle lands and increased in the new areas

ACTIVITY

1. State any **two** causes of the Bantu migration in east Africa.

i) _____

ii) _____

2. Mention any **two** problems faced during migration of the Bantu to east Africa.

i) _____

ii) _____

3. Outline **two** negative consequences of the Bantu migration.

i) _____

ii) _____

4. State any **two** positive outcomes of the Bantu migration.

i) _____

ii) _____

a) Agriculture

b) Other people's culture?

LESSON

NILOTES/ NILOTICS IN EAST AFRICA

1. The Nilotes are the second largest ethnic group in E. Africa.
2. The Nilotes are called so because they had their origin along the Nile valley.

They are divided into three sub groups;

1. The river-lake Nilotes/ Luo speakers
2. The Plain Nilotes / Nilo – Hamites
3. Highland Nilotes.

THE RIVER- LAKE NILOTES

These are people who migrated from Bahr-el- Ghazel in South Sudan.

Their main occupation was pastoralism and fishing.

Examples of River – lake Nilotes

Uganda	Kenya	Tanzania
Acholi	Jaluo	Luo
Alur		
Japhadhola		
Langi		

- ✓ When the River –lake Nilotes migrated into Uganda, they first settled at Pubungu (present day Pakwach).
- ✓ The Nilotic tribe which settled in eastern Uganda is Jopadhola.
- ✓ The river – lake Nilotes who settled in Western Kenya are the Jaluo.
- ✓ The Nilotic tribe that invaded Bunyoro-Kitara formed the Luo-Babito dynasty.
- ✓ The founder of the Luo-Babito dynasty was Isingoma Rukidi Mpuga.

ACTIVITY

1. Name the second largest ethnic group in E. Africa.

2. Which ethnic group migrated from Bahr-el- Ghazel in South Sudan.

3. Mention any **two** examples of River – lake Nilotes.
i) _____
ii) _____
4. Mention any **two** main occupation of river lake Nilotes.
i) _____
ii) _____
5. Who was the founder of the Luo-Babito dynasty?

6. Why are river lake Nilotes also known as the Luo speakers?

LESSON

PLAIN NILOTES IN EAST AFRICA

They migrated from Ethiopian highlands.

Their original occupation was Pastoralism.

They are called so because they settled on plains of East Africa.

Tribes under plain Nilotes in East Africa are

Uganda	Kenya	Tanzania
Karimojong	Masai	Masai
Iteso	Turkana	
Jie	Samburu	
Kumam		

NB: The Plain Nilotes tribe found in both Kenya and Tanzania is **Masai**.

THE HIGHLAND NILOTES

They originated from Ethiopian highlands

They are called so because they settled in highland areas e.g. around Mt. Elgon.

Examples of highland Nilotes are;

Uganda	Kenya	Tanzania
Sabiny /sebei	Nandi	Dadog
Pokot	Marakweti	
	kipsigis	

Reasons for migration of the Nilotics

1. Search for pasture and water for their animals
2. Overpopulation
3. External and internal conflicts
4. Famine and drought

Effects of their migration

1. They led to the collapse of the Chwezi dynasty
2. They introduced short horned cattle
3. They led to inter marriages and hence new tribes
4. They introduced chiefdoms

Factors that determined settlement of ethnic groups:

1. Occupation
2. Relief of an area
3. Climate
4. Fertility of the soil

Factors that determine settlement of people today:

1. Relief of an area.
2. Employment opportunities.
3. Social services
4. Fertility of the soil

ACTIVITY

1. Mention any one source of history known to you.

Ways of controlling population growth:

- ❖ Promoting family planning.
- ❖ Giving gifts to small families.
- ❖ Legalizing abortion.
- ❖ Discouraging early marriages.
- ❖ Promoting girl child education.
- ❖ Discouraging polygamy.

Cultural factors that lead to population growth:

- ❖ Forced/early marriages.
- ❖ Polygamy
- ❖ Producing children for prestige.

Natural disasters that may reduce the number of people.

- ❖ Floods
- ❖ Famine
- ❖ Lightning
- ❖ Volcanic eruption
- ❖ Diseases

Human or Artificial hazards that may reduce the number of people.

- ❖ Motor accidents

- ❖ Fire outbreaks
- ❖ Wars
- ❖ Water and food poisoning
- ❖ Plane crash

ACTIVITY

1. State the difference between **population growth** and **population census**.

2. Give any **two** factors that can lead to population growth.

i) _____

ii) _____

3. Mention **two** ways the government of Uganda can control population growth.

i) _____

ii) _____

4. Give **two** human factors that can lead to population growth.

i) _____

ii) _____

5. Write down **two** cultural factors which can lead to population growth.

i) _____

ii) _____

6. Give **one** way in which water can be poisoned.

7. Mention **two** natural hazards that can reduce the number of people in an area.

i) _____

ii) _____

8. Give **two** artificial disasters that can reduce the number of people in the country.

i) _____

ii) _____

9. Write **two** advantages of a high population to a country.

i) _____

ii) _____

10. State **two** problems caused by a high population to a country.

i) _____

ii) _____

LESSON

Population distribution

Population distribution is how people are spread in a given area.

Types of population distribution

1. Thin/ Sparse population
2. Moderate population
3. Dense/ Thick population

Thin/ Sparse population

This is when an area has few people than the size of land.

Areas that are sparsely populated.

1. Semi-arid areas
2. swampy areas
3. steep slopes
4. areas with thick vegetation
5. Cold mountains,
6. Areas where there is insecurity.

Reasons why semi-arid areas are sparsely populated.

- ❖ Presence of little rainfall.
- ❖ Presence of less pasture for the animals.

Note: Semi-arid climate is experienced in North Eastern Uganda.

Why swampy areas are sparsely populated.

1. Swampy areas sometimes flood and kill people.
2. Most disease vectors breed in swamps.
3. Poor roads especially during the wet season.

Note: swampy areas have clay soil.

Reasons why areas with thick vegetation have sparse population.

1. Due to presence of disease vectors e.g. mosquitoes.
2. Due to fear of being attacked by wild animals.
3. They are hiding places for wrong doers/ law breakers.

Factors for population distribution.

- | | |
|---------------------------------------|--------------------------|
| 1. Good Climate | 6. Political status |
| 2. Presence of fertile soils. | 7. Availability of jobs. |
| 3. Presence of reliable rainfall | 8. Good security. |
| 4. Better social services in an area. | 9. Urbanization. |
| 5. Government policy | |

ACTIVITY

1. Define population distribution.

2. State any **two** types of population distribution

i) _____

ii) _____

3. What is sparse population?

4. Give any **two** areas that are sparsely populated in Uganda.

i) _____

ii) _____

5. Give **two** reasons why semi-arid areas of Uganda are sparsely populated.

i) _____

ii) _____

6. Which part of Uganda is found in semi-arid areas?

7. Write **two** reasons why swampy areas of Uganda are sparsely populated.

i) _____

ii) _____

8. Which type of soil is mainly found in swampy areas?

9. State any **two** reasons why areas with thick vegetation have sparse population.

i) _____

ii) _____

10. Mention any **two** factors responsible for population distribution.

i) _____

ii) _____

LESSON

Dense population

This is when an area has more people than the size of land.

Areas that are densely populated.

- ❖ Around lakes and rivers (water bodies)
- ❖ Urban areas (cities, towns and trading centres)
- ❖ Slopes of mountains

Reasons why areas around lakes and rivers are densely populated.

- ❖ Presence of reliable rainfall.
- ❖ Presence of fishing grounds.
- ❖ Presence of fertile soils for growing crops.
- ❖ Presence of a cool climate.

Reasons why urban areas are densely populated.

- ❖ There are many jobs.
- ❖ Improved security.
- ❖ High standards of living.
- ❖ Trade opportunities.

Problems facing people in Urban areas.

- ❖ Traffic jam and congestion.
- ❖ Food shortage.
- ❖ High crime rate.
- ❖ High cost of living.
- ❖ Poor accommodation

Why agriculturally rich areas are densely populated.

- ❖ Presence of fertile soil for growing crops.
- ❖ Presence of plenty of food.
- ❖ Cool climate.

Why most mountainous areas are densely populated.

1. Some have minerals that are mined.
2. Presence of fertile soil for growing crops.
3. Presence of favourable climate (reliable rainfall)

Why plateau areas are densely populated.

1. Presence of fertile soil for growing crops.
2. Presence of lakes and rivers which promote fishing.
3. Presence of reliable rainfall.
4. It provides space for building social service centres.
5. It helps in mining minerals.

Factors that influence dense population distribution.

1. Presence of employment.
 2. Improved security.
 3. Improved transport and communication
 4. Improved medical care.
 5. High rainfall in an area.
 6. Disease free area
- Presence of fertile soils.

ACTIVITY

1. Mention any **two** areas that are densely populated in Uganda.

- i) _____
- ii) _____
2. State **two** reasons why areas around lakes and rivers are densely populated.
 - i) _____
 - ii) _____
3. Give **two** reasons why urban areas in Uganda are densely populated.
 - i) _____
 - ii) _____
4. State **two** reasons why plateau areas of Uganda are densely populated.
 - i) _____
 - ii) _____
5. Define dense population.

6. Why do you think some mountainous areas of Uganda are densely populated?

7. Mention any **two** problems facing people in Urban areas as a result of dense population.
 - i) _____
 - ii) _____
8. Mention any **two** reasons Why agriculturally rich areas are densely populated.
 - i) _____
 - ii) _____
9. State any **two** factors that influence dense population distribution.
 - i) _____
 - ii) _____

LESSON

Factors that lead to high population distribution / high population density.

1. Reliable rainfall / favourable climate.
2. Better medical and education service.
3. Improved security and peace.
4. Urbanization.
5. Mineral resources
6. Various economic activities. Etc

Advantages of high population to a country.

1. It encourages investment.
2. It creates a large tax base.
3. There is a wide market for goods.
4. Provides cheap labour.
5. There is proper use of available resources.
6. There is enough labour for security.

Disadvantages of a high population.

1. It leads to food shortage.
2. It leads to land fragmentation
3. There is high rate of unemployment.
4. There is easy spread of diseases.
5. It leads to poor sanitation.

The solutions to the above problems.

1. By resettling people to areas with low population.
2. By encouraging re-afforestation.

3. By encouraging people to set up small scale industries.
4. By educating people about dangers of poor sanitation.
5. By improving on security in an area.

Factors that cause low population distribution / low population density.

1. Unreliable rainfall
2. Political instability/insecurity
3. Pests and diseases.
4. Unemployment
5. Lack of better social services e.g health, transport, communication and education services.
6. Natural disasters e.g earth quakes, landslides etc.

Advantages of a low population.

1. There is low crime rate.
2. It is easy to provide social services.
3. Food is enough for the people.
4. Enough social services.
5. Enough employment opportunities.
6. Enough accommodation.

Problems of a low population.

- ❖ Less incomes are collected from taxes.
- ❖ Shortage of labour.
- ❖ Limited market for goods.
- ❖ Low level of production.
- ❖ Under use of available resources.

ACTIVITY

1. Give the difference between high population density and low population density.

2. State **two** factors that influence population distribution.

i) _____

ii) _____

3. Which aspect of climate mainly influences human settlement?

4. Give any **two** factors that influence high population density.

i) _____

ii) _____

5. Write any **two** factors that influence low population distribution.

i) _____

ii) _____

6. Mention **two** advantages of a low population to a country.

i) _____

ii) _____

7. Write **two** disadvantages of a low population to a country.

i) _____

ii) _____

8. Give any **two** examples of social services that may influence population distribution.

i) _____

ii) _____

LESSON

Effects of HIV/ AIDS on population and economic production.

- ❖ **HIV** stands for Human Immunodeficiency Virus.
- ❖ **HIV** is a virus that can cause **AIDS**.
- ❖ **AIDS** stands for Acquired Immune Deficiency Syndrome.

General effects of HIV and AIDS on population.

1. It leads to death of people.
2. It leads to over spending in treating effects of **AIDS**.
3. It leads to Isolation.
4. It causes misery.

Economic effects of HIV and AIDS on the population.

1. It leads to low labour supply due to death of people.
2. It leads to death of energetic people who would do work.
3. There is low market for goods due to the death of people.
4. There is over spending on drugs in treating people infected with AIDS.
5. It leads to loss of efficiency at work.

Social effects of HIV and AIDS.

1. The death of people reduces population in an area.
2. It has led to many orphans due to death of parents.
3. It leads to isolation by other people.
4. It causes misery and pain to the affected person.

Ways in which HIV and AIDS may be spread.

- ❖ Through having unprotected sexual intercourse with the infected person.
- ❖ Through blood transfusion with the infected blood or unscreened blood.
- ❖ Contact of wounds with blood of the infected person.
- ❖ Cultural practices like circumcision using unsterilized sharp objects.

Ways of preventing HIV and AIDS.

1. Use of condom during sexual intercourse.
2. Abstaining from sex.
3. By going for blood test before marriage.
4. Avoid sharing sharp objects with the infected person.
5. Uninfected marriage couples should be faithful to each other.

ABC in AIDS prevention.

A – Abstain from sex.

B – Be faithful

C – condom use.

How the following groups of people can best prevent HIV / AIDS

Unmarried people - Abstinence from sex.

Married couples - Being faithful to one another.

NOTE:

- People who suffer from AIDS are referred to as AIDS patients.
- The AIDS Support Organization (TASO) helps the AIDS patients in Uganda.
- Some services provided by TASO include: provision of Anti-Retroviral drugs, counseling services, relief and in terms of food, clothes.

ACTIVITY

1. Write the following abbreviations in full.
 - a) HIV _____
 - b) AIDS _____
2. How has **AIDS** affected the population of Uganda?

3. Give any **two** effects of **AIDS** on the economy of Uganda..

- i) _____
 ii) _____
4. How has **AIDS** affected people of Uganda socially?

5. Mention **two** ways in which **AIDS** may be spread.
 i) _____
 ii) _____
6. In which **two** ways can people prevent **AIDS**?
 i) _____
 ii) _____
7. Give **two** ways in which **AIDS** has affected the industrial development in Uganda.
 i) _____
 ii) _____
8. Name the Non-Government Organisation in Uganda that helps people who suffer from AIDS.

9. Write **TASO** in full.

10. State any **two** services provided by **TASO** to the **AIDS** patients in Uganda.
 i) _____
 ii) _____

LESSON

Population explosion and population Density.

Population explosion.

Is the sudden increase in the number of people in a given area or country.

Factors that lead to population explosion.

- Immigration
- Natural hazards such as landslides.
- Industrial development.
- ❖ Wars (major cause)
- ❖ Political mistreatment.
- ❖ Famine
- ❖ Religious persecution

Population density: Is the number of people in an area per square kilometer.

How to determine population density.

$$\text{Population Density} = \frac{\text{Total number of people}}{\text{Total area}} = \text{People Sq Km}^2$$

$$\text{PD} = \frac{\text{Total No. of people}}{\text{Area}} = \text{per km}^2$$

Example:

In Kampala, there are 200,000 people covering an area of 200 square kilometers.

Calculate the population density.

$$\text{P. D} = \frac{\text{Total number of people}}{\text{Area per km}^2} \\ = \frac{200000}{200}$$

= 1000 people per km².

1. By encouraging family planning practices.
2. By resettling people from over populated areas to low populated areas.
3. By increasing production of food through modernization of agriculture.
4. By encouraging well planned buildings.
5. By creating more jobs by industrialization.
6. By increasing national budget on the provision of social services.

1. What is the major cause of refugees in Africa?

2. Who is a refugee?

3. State the difference between population explosion and population density.

4. In Arua, there are **100,000 people** living in an area of **500 square kilometers**. Calculate the population density.

5. Lukoi has a population density of **4500 people** per square kilometer. Calculate the total number of people in Lukoi if it has a coverage of 500 square meters.

6. Mbale has a population of **600,000 people** with a population density of **200 people**. Calculate the area covered by the people in square kilometers.

7. Give any **two** solutions to high population density to a country like Uganda.

MIGRATION TODAY

Migration is the movement of people from one place to another for settlement.

1. Emigration
2. Immigration

Emigration is the movement of people from one country to another country for settlement purpose.

Immigration

Immigration is the movement of people from one part of the country to another for settlement purpose.

Types of immigration

1. Rural –urban migration
2. Urban – rural migration
3. Urban – urban migration
4. Rural – rural migration

Urban-rural migration:

This is the movement of people from towns to villages for settlement.

Causes of urban-rural migration.

- ❖ Loss of jobs.
- ❖ Change of job
- ❖ Transfers of work place.
- ❖ High cost of living
- ❖ Unemployment
- ❖ High crime rates.
- ❖ Retirement from jobs.
- ❖ After committing crimes in towns.

Effects of urban-rural migration.

- ❖ It leads to shortage of labour in industries.
- ❖ It leads to low market for urban goods.
- ❖ It reduced taxes from teen areas

ACTIVITY

1. Define the following terms

a) Migration

b) Emigration

c) Immigration

2. Mention any **two** types of immigration.

i) _____

ii) _____

3. Define the term Urban-rural migration

4. State any **two** causes of urban-rural migration in Tanzania today.

i) _____

ii) _____

5. Mention any **two** effects of urban-rural migration.

i) _____

ii) _____

LESSON

Rural-urban migration:

This is the movement of people from villages to towns for better settlement.

Causes of rural-urban migration.

1. Looking for better employment opportunities
2. Looking for better medical care.
3. Looking for better education services.
4. Looking for secure areas.
5. Looking for better entertainment.
6. Looking better trading opportunities.
7. Escape from crimes.

Effects of rural –urban migration to people in towns

1. It leads to over-population.
2. It leads to unemployment
3. It creates high crime rate.
4. It leads to development of slums.
5. It leads to easy spread of diseases.
6. It leads to high food prices in towns.

Effects of rural –urban migration to people in villages.

1. It leads to low food production.
2. It leads to distortion of culture.
3. It leads to shortage of labour.

How government can control rural-urban migration.

1. Provide better education in villages.
2. Provide better medical services in villages.
3. Encourage investors to build small scale industries in villages to provide jobs.
4. Extending cheap electricity and piped water to villages.
5. By improving security in some rural areas of Uganda.

ACTIVITY

1. State the difference between rural-urban migration and urban-rural migration.

2. Give **two** reasons why people move from villages to towns for settlement today.

i) _____

ii) _____

3. How does rural-urban migration affect agriculture in rural areas?

4. Why do people move from towns to villages for settlement?

5. How does urban-rural migration affect industrial development?

6. Why do you think there are many people in urban areas in Uganda?

7. Give **two** ways the government can control rural-urban migration.

i) _____

ii) _____

8. State any **two** problems faced by people living in urban areas of Uganda.

i) _____

ii) _____

LESSON

Urban-urban migration and rural-rural migration

Urban-urban migration:

This is the movement of people from one town to another town for better settlement.

Causes of urban-urban migration.

1. Loss of jobs
2. Change of job
3. Transfers of work place.
4. Looking for market for their goods.
5. After committing crimes in one town.
6. To enjoy better social services.

Effects of urban-urban migration.

- ❖ Shortage of market where they left.
- ❖ Shortage of labour where they left.

Rural-rural migration:

This is the movement of people from one village to another village from settlement.

Causes of rural-rural migration:

- ❖ Shortage of land.
- ❖ Looking for water and pasture.
- ❖ Internal and external conflicts.
- ❖ Looking for fertile land for growing crops.

Effects of rural-rural migration.

- ❖ It leads to low population where they left.
- ❖ It leads to displacement of people where they settle.
- ❖ It leads to high population where they settle.
- ❖ It leads to conflicts with original people.

Immigration

This is the movement of people into the country from another country.

Causes of Immigration.

1. Insecurity /wars
2. Looking for better jobs.
3. Representing a country as an ambassador / High commissioner.
4. Running away from natural disasters.
5. Looking for political asylum.
6. Joining their families.

LESSON

1. What is urban-urban migration?

2. Give **two** causes of urban-urban migration.

i) _____

ii) _____

3. What is rural-rural migration?

4. State any **two** causes of rural-rural migration.

i) _____

ii) _____

TOPICAL TEST

1. Define the term population.

2. Why is family planning important in Uganda?

3. What is referred to as population structure?

4. List **two** advantages of having a small family.
i) _____
ii) _____
5. Mention any **two** disadvantages of having a small family.
i) _____
ii) _____
5. Why should the government of Uganda check the population growth?

6. What is meant by the term "**census night**?"

7. Differentiate between a population density and sparse population.

8. Mention any **two** importance of having moderate population density.
i) _____
ii) _____
9. Outline any **two** problems caused by a high population density.
i) _____
ii) _____
10. Mention any **two** disadvantages of low population to a country.
i) _____
ii) _____
11. Find the population density of Kikajjo Trading Centre with the Population of 12,000 people covering an area of 300 square kilometers.

12. List any **two** districts in Uganda with a low population.
i) _____
ii) _____
13. Suggest any **two** factors which influences population distribution.
i) _____
ii) _____
14. Write D.P.O in full.

15. Mention any **two** problems faced during population census.
i) _____
ii) _____
16. Mention any **two** effects of COVID 19 and Ebola on the population.
i) _____
ii) _____
