-
50. The farmer should treat the animals when they fall sick. He should also feed them well. (Rewrite the sentence beginning: Not only)
-

SECTION B: 50 MARKS

51. Read the passage below and answer the questions that follow in full sentences.

Last week, Primary Six pupils of Lubanda Primary School went for an educational tour. They visited Kidawalime Bakery in Masaka Town. They were accompanied by their teachers of English, Mr. Muleba and Mrs. Kauma. Before they boarded the bus, their teachers told them to pack their notebooks and pens in the bags.

After having breakfast, they set off for the journey. On the way, they saw important physical features and places like rivers, swamps, banks and hospitals. At the bakery, they were welcomed by the receptionist who spoke politely to their teachers and directed them to where the bread, cakes and scones were baked. There they met the manager, who welcomed them and moved them around showing them everything and their use. They saw people kneading dough, and others were putting the bread and cakes in the ovens. Some were icing the cakes and packing the bread and other confectionaries.

We enjoyed very much, asked some questions to the manager, who also answered them very well and happily. He said that he was happy to receive us and he gave us a loaf of bread each and two loaves to our teachers. All the products of Kidawalime Bakery are tasty and delicious. In the evening the bus driver drove us back to school.

Questions:

a. Which class is talked about in the passage?

b. In which school is the mentioned class?

c. Where did the children go last week?

d. Which bakery did they visit?

e. In which town is the bakery?

f. Who accompanied the pupils to the bakery?

g. What were the pupils told to pack?

h. Who welcomed the pupils to the bakery?

i. Are all the products of Kidawalime Bakery tasty and delicious?

j. Give the opposite of "happily."

52. The information below was found on the noticeboard of Horizon Junior School. Study it and answer, in full sentences, the questions that follow.

DEBATE! DEBATE!

PRIMARY SIX Vs PRIMARY FIVE

Motion:	Girl Child Education Should be Abolished
Opposers:	Primary Five
Proposers:	Primary Six
Chairperson:	Hon. Kiweewa Imran (P.5)
Timekeeper:	Lugunda Emma (P.6)
Secretary:	Masembe Eliya (P.6)
Chief whip:	Kato Pius (P.5)
Date:	20th August, 2023
Venue:	School Main Hall
Time:	2:00 – 4:00 p.m.

NB. Each speaker will be given a packet of yoghurt.

Questions:

a. Where should one find the above information?

b. What is the notice about?

c. Which classes are going to hold the debate?

d. What is the motion of the debate?

e. Who is going to preside over the debate?

f. What role will Masembe Eliya play?

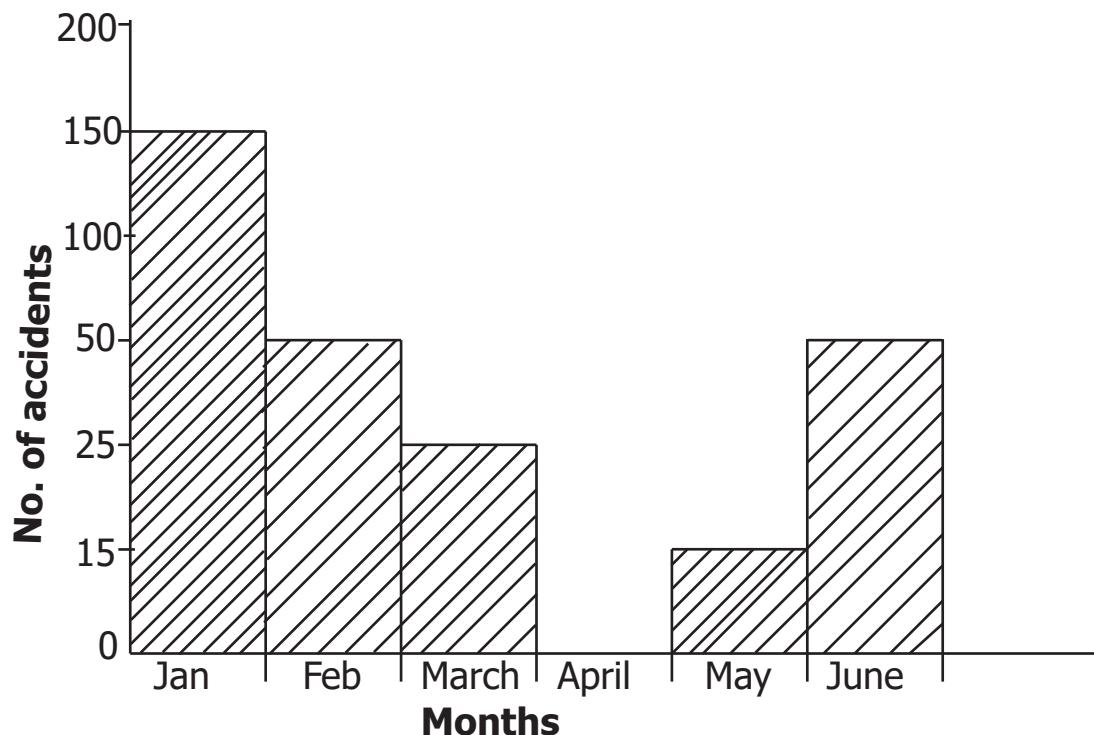

g. At what time will the debate start?

h. From which class is the chief whip going to come?

i. When will the debate be held?

j. What will each speaker get?

53. The graph below shows the number of accidents that were recorded in Jinja District in first-six months of 2020, Study it and in full sentences answer the questions that follow.

Questions:

- a. What is the graph about?

- b. How many months are shown on the graph?

- c. From which district was the above information obtained?

- d. When was the above information obtained?

- e. Which month had the highest number of accidents recorded?

- f. Which month did not have any accident obtained?

- g. How many accidents were recorded in February?

- h. What is the difference between the highest and the lowest number of accidents?

- i. According to the first three months, which month had the fewest accidents?

- j. Write full form of Jan.

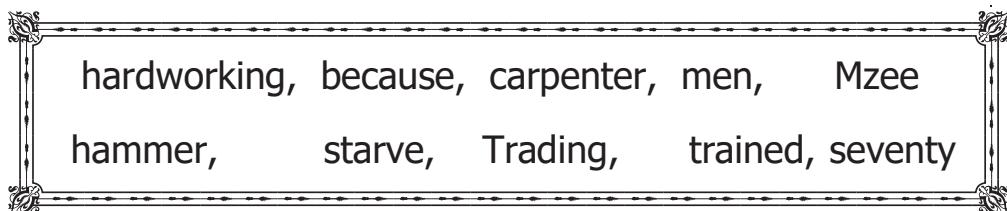

54. Rearrange the sentences below to form a correct story.

- a. On the way, she fell down.
- b. Joan was carrying a basketful of fruits.
- c. Some people begged her to leave the girl but she refused.
- d. Joan's grandmother was very annoyed because of the damaged fruits.
- e. Most of the fruits were damaged because they were very ripe.
- f. She got a stick and started beating her badly.
- g. Finally she was found guilty and imprisoned.
- h. One day, Joan and her grandmother were taking fruits to the market.
- i. This annoyed the people and they called the Police.
- j. She was then arrested and charged with child abuse.

Good story

55. Use the words in the box to complete the table below.

Semambo is a known _____ in Buwambo Centre. He has done this job for quite a long time in this place. At age _____, he can still _____ nails into timber to make beds, sideboards, wardrobes among others. He has _____ very many young _____ from his workshop. They are now living a happy life. _____ they can't _____ with what to feed their families. All of them are like Mzee Semambo.

SECTION A (40 MARKS)

1. Work out: 22×4	6. James had $\frac{3}{4}$ of his bread and ate $\frac{1}{4}$. What fraction of his bread did he remain with?
2. Write " Forty nine thousand four " in figures.	7. Using a pair of compasses, rulers and a very sharp pencil only, construct an angle of 120° in the space provided below:
3. Double the next number in the sequence below: 1, 4, 9, 16, _____	
4. Given that $K = \{ p, t, c \}$. List all the subsets in set K.	8. If $K = M = 3$. Find the value of $K^2 + M$.
5. Solve: $2(n - 3) = 4$	9. Simplify: $-3 + -5$

10. Work out: $2^3 + 7^{\circ}$	13. A factory produced 5,207,342 bars of soap. 3,267,204 bars of soap were sold. How many bars of soap remained?
11. The area of a triangle is 20m^2 . If the triangle has a base of 8m, find its height.	14. Express $2\frac{1}{2}\text{ kg}$ of salt as grammes.
12. Round off 137 to the nearest tens.	15. Find the smallest number when divided by 4 or 5 leaves no remainder.

16. Using the clock face below, show 20 minutes to 3 o'clock.

17. After selling a piece of fish at shs 15,000, Edward made a profit of shs. 3000. At what price did he buy the piece of fish?

18. Given that represents 8 cups. How many cups are represented by ?

19. Expand 213_{five} using values.

20. Increase sh. 6,000 in the ratio 3:2.

SECTION B (60 MARKS)

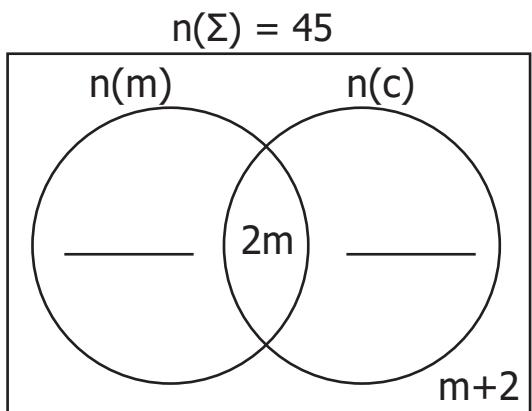

21. The sum of the three consecutive odd numbers is 15. If the first odd number is k. Find the numbers. (4 marks)

22. a) Express 14_{five} as a binary base. (3 marks)

- b) Show 413_{five} on a well drawn abacus. (2 marks)

23. At a school tour of 45 pupils, 20 ate meat only, 14 ate chicken only, $2m$ ate both meat and chicken while $m+2$ pupils ate neither meat nor chicken.

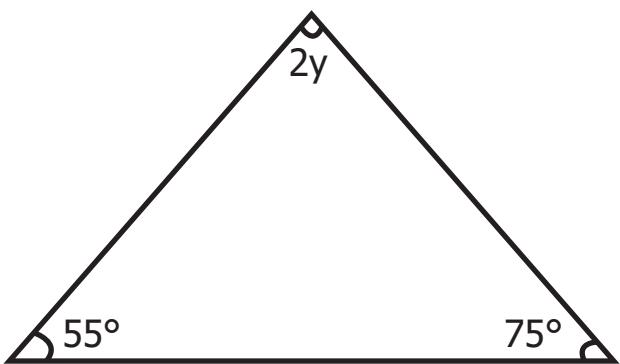

- a) Complete the Venn diagram below: (2 marks)

- b) Find the value of m . (2 marks)

- c) How many pupils never ate chicken? (2 marks)

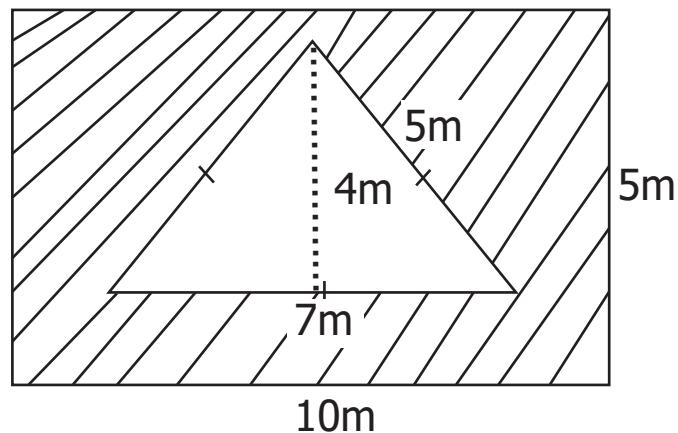

24. a) Find the value of y in degrees. (3 marks)

- b) Robert was facing the North Eastern direction. He turned clockwise to face south. Through what angle did he turn? (2 marks)

25. a) A motorist moved a distance of 270km in 3 hours. At what speed was he moving? (2 marks)

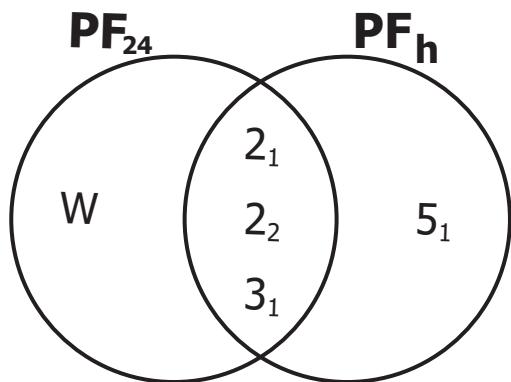

26. Study the figure below carefully and use it to answer the questions that follow:

- b) If a cyclist covered the same distance using a speed of 54km/hr. How long did the cyclist take to cover that distance? (3 marks)

- a) Find the area of the outer rectangle above.
- b) Calculate the area of the inner triangle. (2 marks)
- c) Calculate the area of the region which is shaded. (2 marks)

27. Study the Venn diagram below carefully and use it to answer the questions that follow:

a) Find the value of:

(i) W (2 marks)

(ii) h

b) Find the G.C.F OF PF_{24} and PF_h . (1 mark)

28. a) Work out: $\frac{2}{3} \times \left(\frac{1}{2} - \frac{1}{4}\right) \div \frac{1}{5}$ (3 marks)

b) Four men can dig a sorghum garden in 6 days. How many days do 8 men take to dig the same garden if working at the same rate? (2 marks)

29. Simon went shopping with shs 30,000 and bought the following items:
2kg of sugar at shs 3,,500 each kg.
 $1\frac{1}{2}$ litres of cooking oil at shs 6,000 per litre.
5 tomatoes at shs 2,000.
3kg of beans at shs 2,400 per kg
Calculate his total expenditure. (4 marks)

b) How much was his balance? (2 marks)

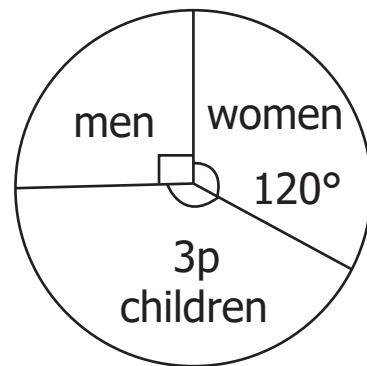

30. Hamis is 9 years younger than Teddy. If the sum of their ages is 39, how old is hamis? (3 marks)

b) Simplify: $\frac{3w}{5} = 3$. (2 marks)

31. Using a pair of compasses, ruler and a very sharp pencil only, construct a square PQRS where $PQ = QR = 4.5\text{cm}$. (4 marks)

32.

The pie-chart below shows the number of people in Njeru Town Council. Study it carefully and use it to answer the questions that follow:

a)

Find the value of p in degrees. (2 marks)

a)

If there are 1,800 people in that town council, how many children are there? (2 marks)

END

SECTION A: 40 MARKS

1. What health activity must be done after visiting a latrine or toilet?

2. Name one example of a root tuber.

3. To which group of mammals do bats belong?

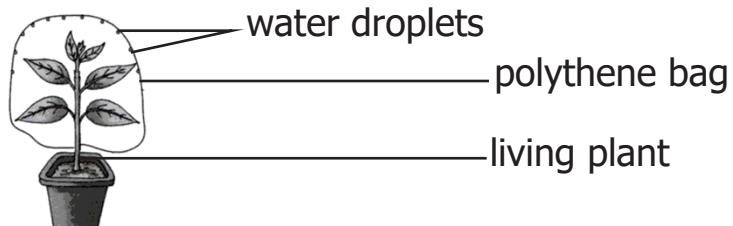

4. What term is used to refer to the reflected sound that we hear?

5. How does a fern plant reproduce?

6. Why is breast milk the best food for babies below the age of 6 months?

7. Name the sterile bees in the hive.

Study and use the diagram below to answer questions 8 and 9.

8. Which process is shown in the diagram?

9. Give one factor that determines the rate of the process above.

10. Name the force which pulls objects towards the center of the earth.

11. Name the organ which helps to exchange gases in the human body.

12. Where does fertilization in a cow take place?

13. Why is it not advisable to leave cooked food uncovered?

14. Mention any one disease spread at home through the 4F's germ path.

15. Identify one method of harvesting cassava.

16. Give one characteristic of insect pollinated flowers.

17. State one use of the valves in the human heart.

18. How is thinning useful in crop growing?

19. Which delicate body organ is protected by the backbone?

20. Nantume's baby has a pot belly and moon face. What deficiency disease is Nantume's baby suffering from?

The diagram below shows a common invertebrate. Use it to answer questions 21 and 22.

21. To which group of invertebrates does it belong?

22. How does the above animal protect itself?

23. Give one physical process involved in the formation of rain.

24. How does crop rotation control crop pests and diseases?

25. Identify the standard units for measuring weight.

26. What vaccine is administered to pregnant women and girls of ages 12 and above against tetanus?

27. What type of root system does an onion have?

28. How best can school going children control pregnancies?

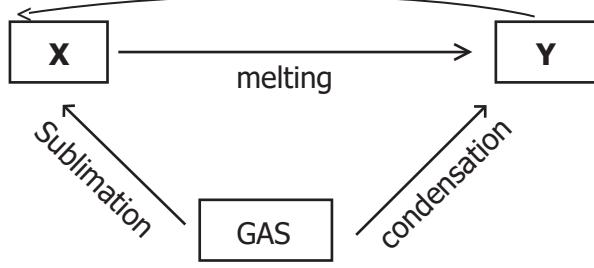

29. How is a strip cup useful to a cattle farmer?

30. In the space provided below, draw a simple serrated leaf.

31. Name any one non-flowering plant that reproduces by means of seeds.

32. Which part of a maize grain has similar function as the cotyledons of a bean seed?

The diagram below shows changes in states of matter. Use it to answer questions 33 and 34.

33. Name the state of matter marked Y.

34. By what process does the state of matter (Y) change into (X)?

35. Give any one importance of conducting health parades in a school.

36. Mention the food value got from eating most fresh fruit.

37. Identify one item people use to protect themselves during a rainy weather.

38. What form of energy helps us to see?

39. Mention the type of soil used for modeling.

40. State any one way how bacteria are useful to people.

SECTION B: 60 MARKS

41. a) State any two reasons why we give first aid.

- i) _____
ii) _____

b) What first aid would you give to a person with a fractured limb?

c) Suggest one way of reducing road traffic accidents.

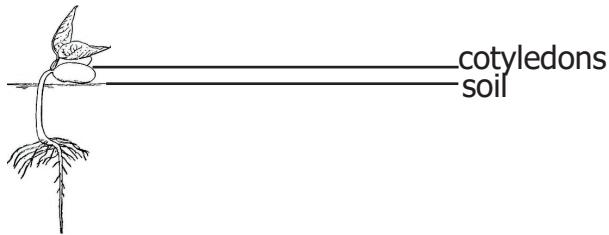

42. a) Identify any two groups of vulnerable people you know.

- i) _____ ii) _____

b) Suggest any two ways of caring for vulnerable people.

- i) _____
ii) _____

43. The diagram below shows a germinating seed, study and use it to answer questions that follow.

- a) Name the type of germination shown in the diagram
-
- b) Give one example of a seed that undergoes such a type of germination.
-
- c) List down two conditions necessary for a seed to germinate.
- i) _____ ii) _____
-

44. a) Write down the duty of each of the bee given below.

- i) drone _____
ii) queen _____
-

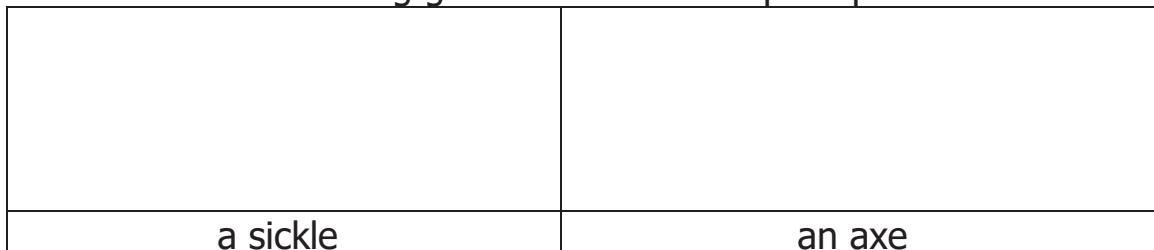

- b) Mention any two methods used to harvest honey in bee keeping.

- i) _____ ii) _____
-

45. a) Give one example of each of the following birds in the environment:

- i) birds of prey. _____
ii) scavenger birds. _____
- b) How is a sunbird adapted to its mode of feeding?
-

46. a) Draw each of the following garden tools in the space provided below.

- b) Name the crop growing practice that preserves moisture in the soil.

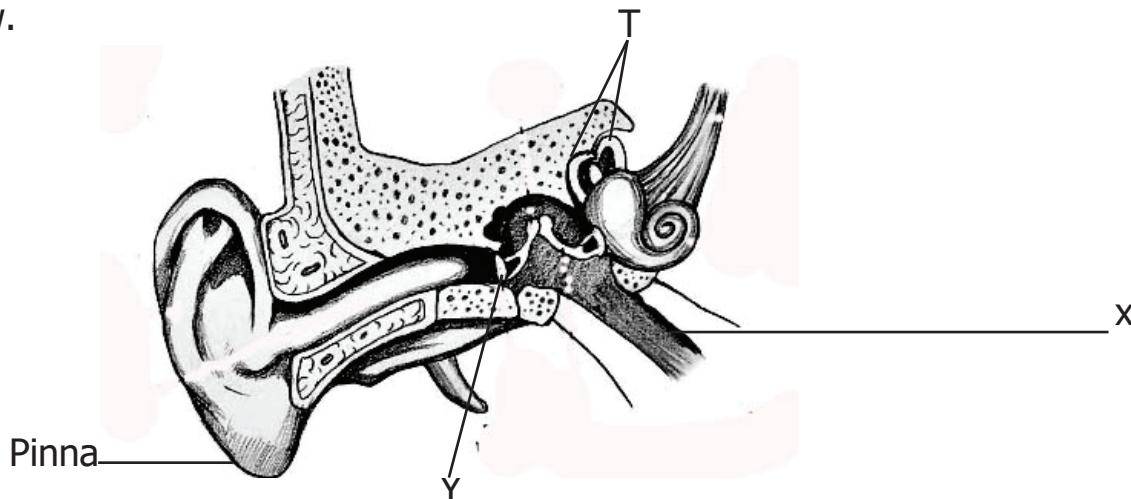

- c) How can a crop farmer prevent rusting of garden tools?
-

47. a) What is Primary Health Care?

b) Mention any one principle of P.H.C.

c) Name the element of P.H.C that helps to;

48. The diagram shows the human ear. Study and use it to answer the questions that follow.

a) Name the parts marked:

i) X _____ ii) Y _____

b) State the function of the part marked T on the human ear.

c) Mention one disease that attacks the human ear.

49. a) Name the process which turns sugar added to water into alcohol.

b) What fungus organism enables the process above to take place?

c) Mention any two body organs damaged by excessive alcoholism.

50. a) Name the instrument used to measure the human body temperature.

b) How is a kink useful on a clinical thermometer?

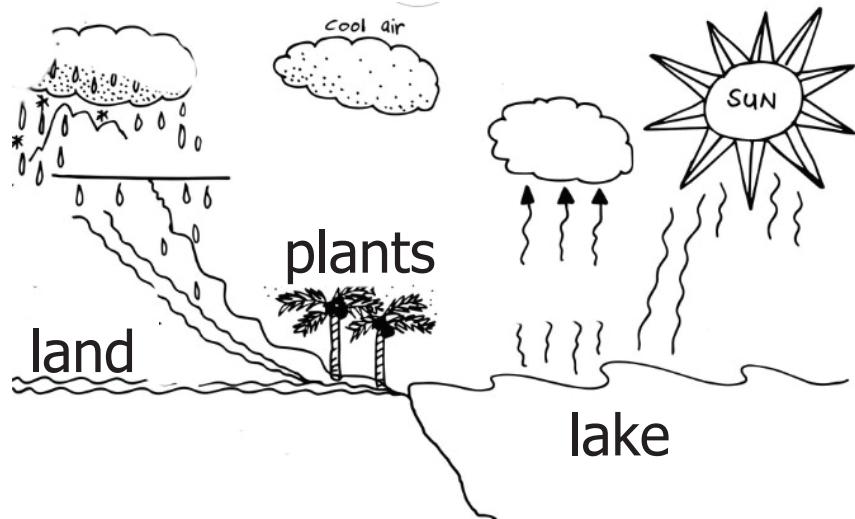

c) Write down two reasons why mercury is commonly used in thermometers.

51. The diagram below shows a system of grazing cattle. Study and use it to answer the questions that follow.

- a) Name the method of grazing cattle shown in the diagram above.
-
- b) State one advantage of the method in the diagram above.
-
- c) Mention any two tick borne diseases in cattle.
-
52. a) Apart from the canine teeth, mention two other types of teeth in humans.
i) _____ ii) _____
- b) How are canines useful to humans?
-
- c) State any one way of caring for the teeth.
-

53. The diagram below shows a water cycle. Use it to answer questions that follow.

- a) Name the type of clouds above.
-

b) State any one danger of too much rain in the environment.

c) How is the sun useful in the above cycle?

54. a) What is a resource?

b) Give any two examples of non-renewable resources in the environment.

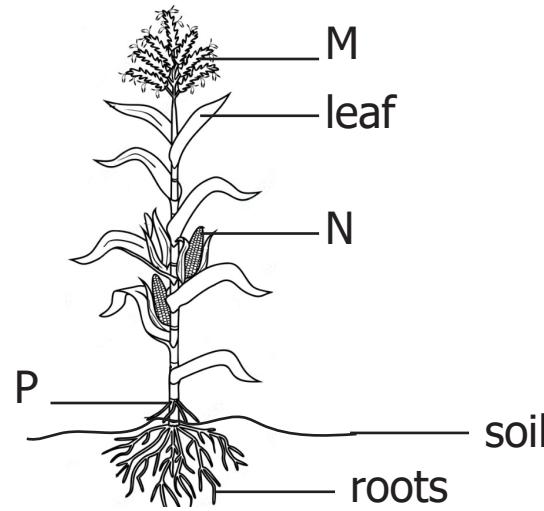

i) _____ ii) _____

c) State any one way of conserving non-renewable resources.

i) _____

ii) _____

55. The diagram below shows a flowering plant. Study and use it to answer the questions that follow.

a) Name the part labeled N.

b) To which group of flowering plants does the above plant belong?

c) What type of leaf venation does the above plant have?

d) Give the importance of the roots marked P to the above plant.
