51. **Read the passage below and carefully answer in full sentences the questions that follow.**

Man needs animals and he keeps some at home. These animals include; cows, goats, sheep, pigs. In many homes, there are pets like cats, dogs and rabbits. These mainly give man company, fun and protection. Man must take care of these animals. He must provide them with food, love, shelter, clean water and veterinary services. The young ones like puppies and kittens need injections and vaccination. This prevents diseases like rabies.

Many people keep pets but they don't give them good care especially those in rural areas. You should think of the breed, health and duty of the pet before you own one. The puppies grow up and they need a good kennel. Cats need a warm environment, enough food like meat, milk and freedom. Once the kittens have stopped breastfeeding, they need to be given special care. This is when they are about three months old. Birds like parrots can also be kept the same way as dogs and cats but in well built cages. They need cereals for food. These birds make our homes look beautiful.
