13. The student began doing the exa still doing exams. (Use:for		It is now noon and they are
14. We did a lot of practice. We got	good results. (B	Begin: The the)

# 15. Read the story that was put in the readers' article in the New Vision newspaper of Saturday 24<sup>th</sup> August, 2013 and then answer questions about it in full form.

Money is said to be medium of exchange for goods and services. At some point people say that God made man and man made money but money made man mad. Money is both good and bad in many ways. For instance, on the good side, money is needed to pay taxes, school fees, buy food, medicine, and many others. It is also needed to buy household property and for all sorts of entertainment. Without money life becomes very uncomfortable. Parents can't build good houses, they can't buy good clothes and neither can they buy good cars and many other things that we need in our everyday walk of life. Money is needed in order to organize social functions like weddings, etc. Money is also needed during miserable situations like when one has lost a dear one.

On the other hand, money is said to be the root – cause of all sorts of evil and suffering in the whole world. Some people misuse it to do havoc to others in the society. For example, some people give false witness to others, just because they want to get money. The greed for money has brought about corruption, bribery, murder, robbery, jealousy, favoritism, segregation and all sorts of evil practices in the entire universe.

What would the world look like if the was no money?

a.	What is the story about?
b.	According to the story, what is money?
c.	Where was this story put?
d.	Who wrote the story?
e.	What made man run mad?

f. Write a word or group of words to mean;		
(i) Entertainment

h) How many main speakers participated?

i) Who is M. Mpala Amir?

j) How long did the debate last?

#### **MATHEMATICS**

2. Write 147 in Roman numerals.

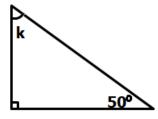

3. Find the complement of 25°.

4. Write in figures: Two hundred twenty-two thousand twenty-two.

5. **Simplify:** 3p - 3q + 2p + 2q

7. Workout: 
$$\frac{1}{2} \div \frac{3}{4}$$

10. Find the size of angle k.

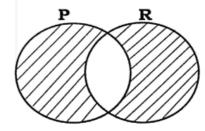

11. The sum of the values in the table below are the same vertically, horizontally and diagonally. Fill in the missing values to complete the table.

		28	17
25	20	19	
	24	23	18
26	15		29

12. The sum of 4 consecutive integers is 18. Find the integers.

**13. Add:** 17 + 12

14. Describe the shaded set region.

**15. Simplify:**  $\frac{1}{3} + \frac{1}{2}$ 

16. Find the mode of 2, 4, 0, 4, 8

17. Express 72km/hr as m/sec

18.	Find	the	next	two	numbers	s in	the	sequ	ence
	1,	3, 6	, 10,	,	,				

19. Workout:

#### **Weeks Days**

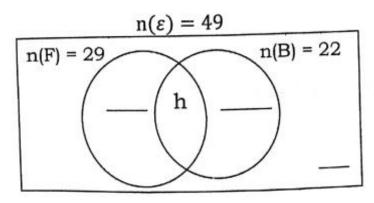

20. Using a ruler, a sharp pencil and a pair of compasses only, construct an angle of 120°.

21. Change 49 to Roman numerals.

22. **Simplify:** <sup>-</sup>6 - <sup>+</sup>6

23. Out of 49 swimmers in the swimming Gala, 29 took part in free style **(F)**, 22 took part in Breast stroke **(B)**, h took part in both styles. While 3 did not participate in any of the two styles.

a) Show the above information on a Venn diagram below.

b) How many swimmers took part in both styles?

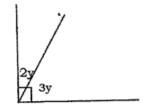

24. Peter spends his monthly income as follows 10% on rent, 30% on food 40% on fees and 20% on other items. Using a radius of 4cm construct a pie chart to represent the above information.

25. Reduce  $\frac{18}{20}$  to its lowest terms.

26. Set K has 16 subsets. Find the number of elements in set K.

27. Given that girls represent 30 girls. Draw pictures to represent 20 girls

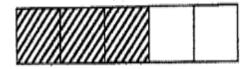

28. In the figure below, find the value of y.

29. Find the G.C.F of 30 and 24.

30. Jane ran 3.5km during sports day. Express this distance in metres.

32. In the figure below, express the shaded region as percentage.

33. Find the difference in the place value of 3 and the value of 6 in the number 73,968.

34. **Simplify:** 5w + 4y - 3w - 3y

35. The table below shows marks scored by some pupils in an examination.

Marks scored	80	70	60	90

Number of pupils	3	P	4	2

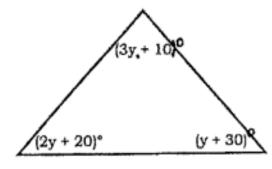

a) If 10 pupils sat for the test, find the value of **P**.

b) What was the modal score?

c) Find out the median mark.

d) Workout their average score.

36. a) Find the value of y in the diagram below.

b) If X and  $2x + 30^{\circ}$  are supplementary angles. Find the value of x.

- 37. In a village of 3000 people, 40% of them are males and the rest are females.
  - a) Find the percentage of the females in the village.
  - b) How many males are in the village?

c) How many more females than males are in the village?

38. **Add:** 5 2 5 + 4 7 3

39. Find the value of m.

- 41. Write 2:45p.m. in words.
- 42. Round off 438.5 to the nearest whole number.
- 43. Convert 3metres to centimetres.

44. Double the next number in the sequence. 1, 3, 6, 10, 15, \_\_\_\_

45. Johnson bought 4 books at sh.2000. Find the cost of 7 similar books.

46. If 6 men can plough a garden in 4 days, how long will 8 men take to plough the same garden if working at the same rate?

47. Complete the table below

Items	Quantity	Unite price	Amount
Sugar	2	Sh.4000	Sh
Rice	kg	Sh.3000	Sh.1,500
Meat	1½ kg	Sh.10,000	Sh
beans	500g	Sh.2000@kg	Sh

(Show the working)

i) 
$$X + y + z$$

ii) 
$$Xy + xz$$

#### 49. Study the table below and answer the questions that follow

Marks	80	70	90	60
No. of pupils	2	3	1	4

- a) How many pupils did the test?
- b) Workout their range
- c) <u>**Find**</u> i) median

ii) modal frequency

iii) arithmetic mean

50. **Workout:** <sup>-8</sup> + <sup>-2</sup>

51. What is the least number that can be divisible by either 8 or 12 and leaves 7 as a remainder?

52. If  $K = \{2_1, 2_2, 2_1, 5_1\}$ . Find the value of **K**.

53. Using a pair of compasses construct an angle of 60°.

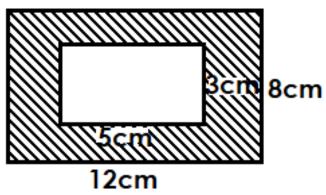

54. Find the area of the triangle below.

55. Expand 861.05 using exponents.

56. Write 987 in Roman numerals.

#### 57. Workout the area of the shaded part.

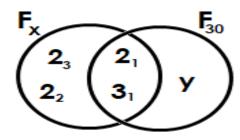

58. Three men were shooting at an interval of 20minutes, 30minutes and 40 minutes respectively.

a) After how long will they shoot together at the same time?

b) If they started shooting together at 5:30a.m, at what time will they shoot together again.

#### 59. Study the table below and answer the questions that follow.

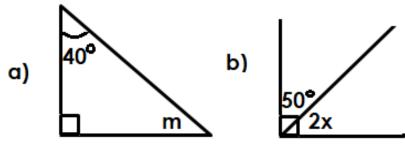

a) Find the value of x.

b) Find the value of y.

c) Workout the GCF of x and 30.

d) Find the LCM of x and 30.

60. Find the size of the unknown angles.

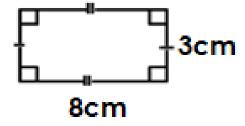

c) Find the complement of 30°.

#### 64. Convert 24<sub>five</sub> to base ten

#### 65. Write 986 in standard from

#### 66. Calculate the perimeter of the figure

67. A car covered a distance at a speed of 60km/h for 2 hours. Calculate the distance covered.

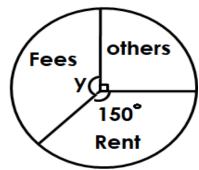

68. A trader deposit sh. 200, 000 at an interest rate of 10% per year for 3 years. Find his simple interest.

69. There are 4 mangoes and 5 apples in the bucket. Find he probability of picking a mango from the bucket.

70. **Solve fox x:** 2x + 3 = 7

71. **Workout:**  $\frac{1}{3} - \frac{1}{4} + \frac{1}{2}$ 

## 72. The pie chart below shows how Mr. Jjungu spends his salary of sh. 600,000. Use it to answer the questions that follow

- a) Find the value of y.
- b) How much does he spend on each item below i) Fees
  - (ii) Rent

- (iii) others
- c) Express the angle sector for fees as a percentage.

73. The sum of four consecutive odd numbers is 72. Find the numbers.

74. Express 645 in expanded form using exponents.

75. Workout: <sup>-</sup>5 + <sup>-</sup>5

76. Share sh.2400 in the ratio 3:4

77. Draw tallies of 14 in the space below.

78. Solve: 2x + 4 = 12

80. Add: 
$$\frac{1}{3} + \frac{1}{5}$$

81. Baluku, Mulindo and Mumbere shared sh.25000 in the ratio 2:3:5 respectively. How much money did each get?

82. Use a ruler, a pair of compasses to construct a regular hexagon using a radius of 3.5cm.

84. Given that 
$$x = 5$$
 and  $y = 6$  Evaluate  $xy$ 

85. If 5 books cost sh.10, 000. Find the cost of 10 similar books.

86. Express 20g as a percentage of 1kg.

87. A trader withdraws a bundle of five thousand notes numbered DGHZ000816 to DGHZ000915. How much money was in the bundle?

89. Round off 653.68 to the nearest tenths.

90. Study the table below and answer the questions that follow.

Marks	80	90	75	60	67
No. of pupils	3	1	2	3	1

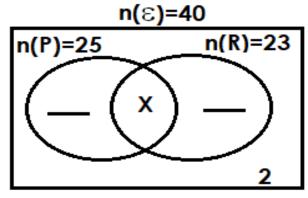

Find: (i) range (iii) average

(ii) median

91. At Kiswa P/s bells ring at an interval of 30 minutes and 40 minutes respectively to change the lessons.

a) After how long will the bells ring together?
b) If they ring together first at 9:10am, at what time will they ring together for the second time.
92. Rukia bought the following items from Nakeroro market - 2kg of meat at sh. 1200@kg - 3litres of cooking oil at sh.6000 per litre - 1 ½ kg of beans at sh.2000 each a) Calculate the total expenditure
b) If she had two notes of fifty thousand shillings. Find her change.
93. In a class of 40 pupils 25 like posho (P), 23 like rice (R), X like both posho and rice while 2 do not like any of the two food stuffs.

a) Complete the Venn diagram

b) Find the value of X.

c) If a pupil is chosen at random, what is the probability of selecting a pupil who likes night of the two types of food?

- 94. **Workout**: 4 8 6 X 3 3
- 95. Find the GCF of 16 and 20.

97. A rectangle measures 10m by 8m. Calculate its perimeter.

98. A set has 16 subsets. How many elements are in the set?

99. What is the time shown in the morning below?

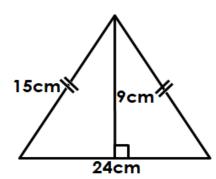

100. Solve for X. 5(x-3) = 0

101. John is 5 years younger than Caleb. If their total age is 35 years. How old is each.

102. Share sh.24000 in the ratio 2:3:5 respectively

103.

a) Workout its area.

b) Find its perimeter.

104. Write CDXCIX in Hindu Arabic numerals.

105. The radius of a circle is 14cm. Find its diameter.

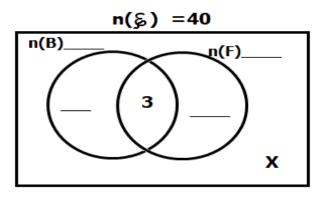

106. Express 2:59 p.m. to a 24-hour clock system.

107. Simplify 2m - 4n + m + 6n

108. A trader bought a radio at a sh.25000 and later sold it at a loss of sh.5000. Calculate his percentage loss.

109. Calculate the area of the figure

- 110. In a class of 40 pupils, 21 like Fish (F), 23 like beef (b), x like neither of the two while 3 like both Fish and Beef.
  - a) Complete the Venn diagram.

b) Find the value of x.

- 111. a) Construct the following angles.
  - i) 60°

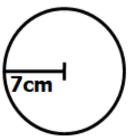

b) Use a radius of 4.9cm to construct a regular hexagon.

112. The sum of three consecutive even numbers is 36. Find the number

113. **Workout**: <sup>-8</sup> + <sup>-3</sup>

114. Allan deposited a bundle of notes numbered consecutively from BL001832 to BL001843 worthy five thousand shillings in value. How much money was deposited?

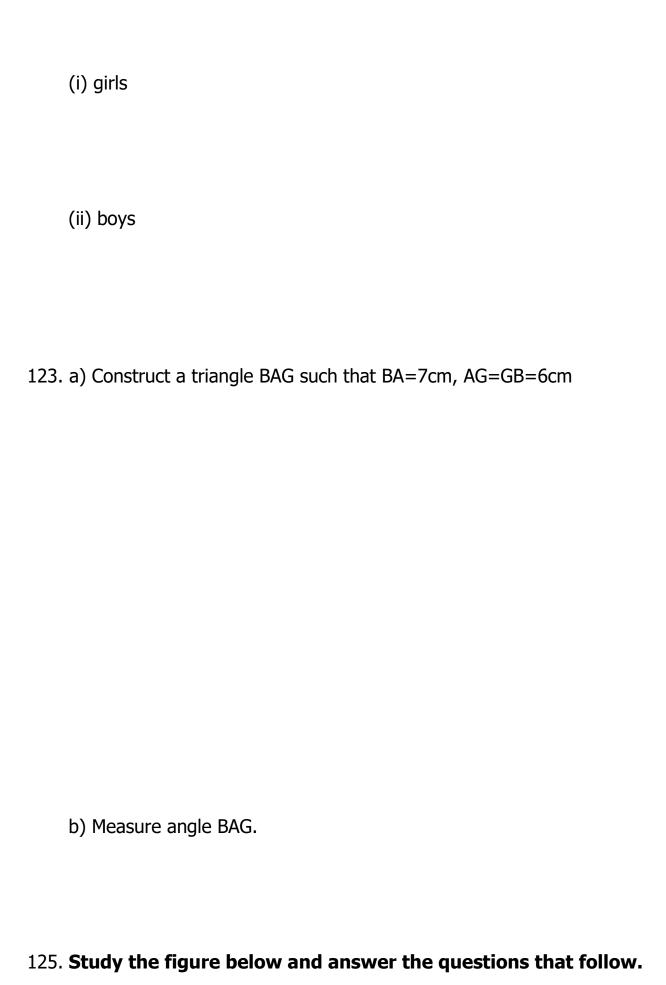

115. Find the circumference of the circle below.

116. Write **DIX** in **Hindu Arabic** numerals.

117. In the space provided below construct an angle of 45°.

118. Convert 750grams to kilogram.
119. Express 12½ % as a fraction in its lowest term.
120. If set L has 64 subsets. Find n(L)
121. Express 852 in standard from.
122. In a class of 60 pupils, 40% are boys and the rest are girls.
Find the number of:

Marks	90	75	80	60
No of pupils	2	1	3	4

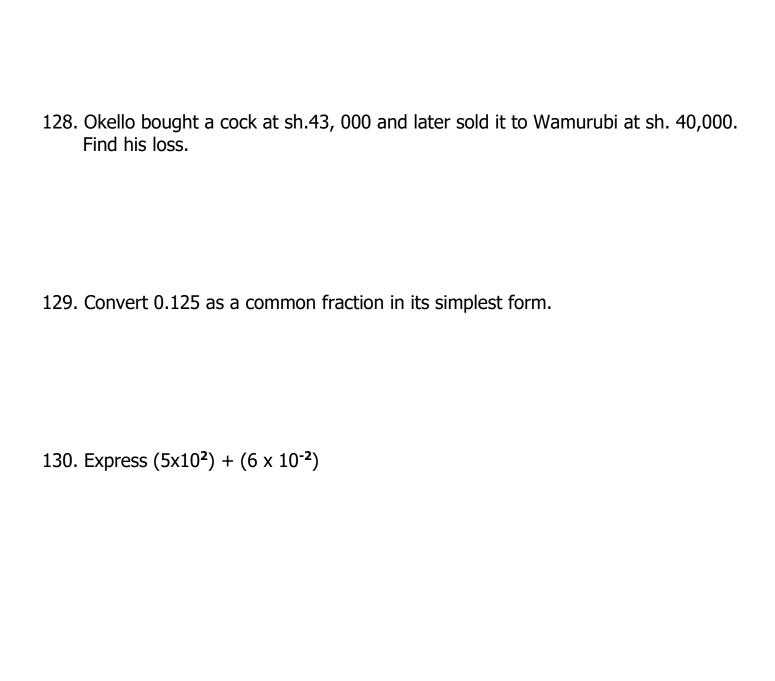

a) How many pupils did the test?

- b) Find the:
  - i) Median score

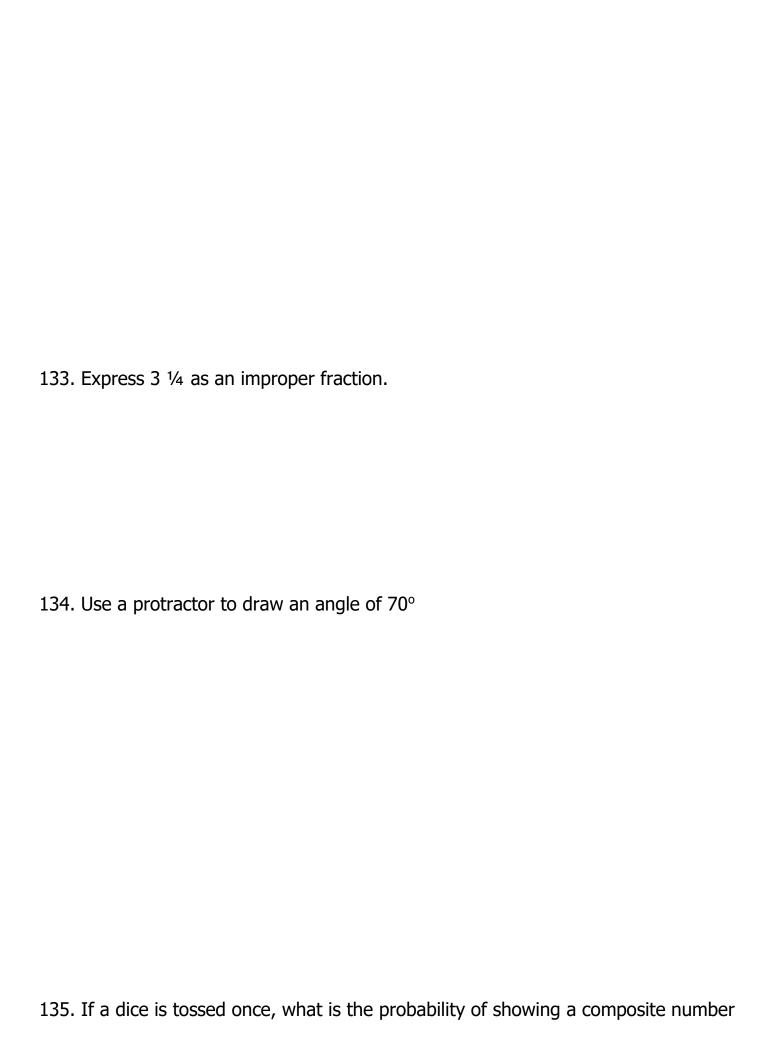

ii) Modal frequency

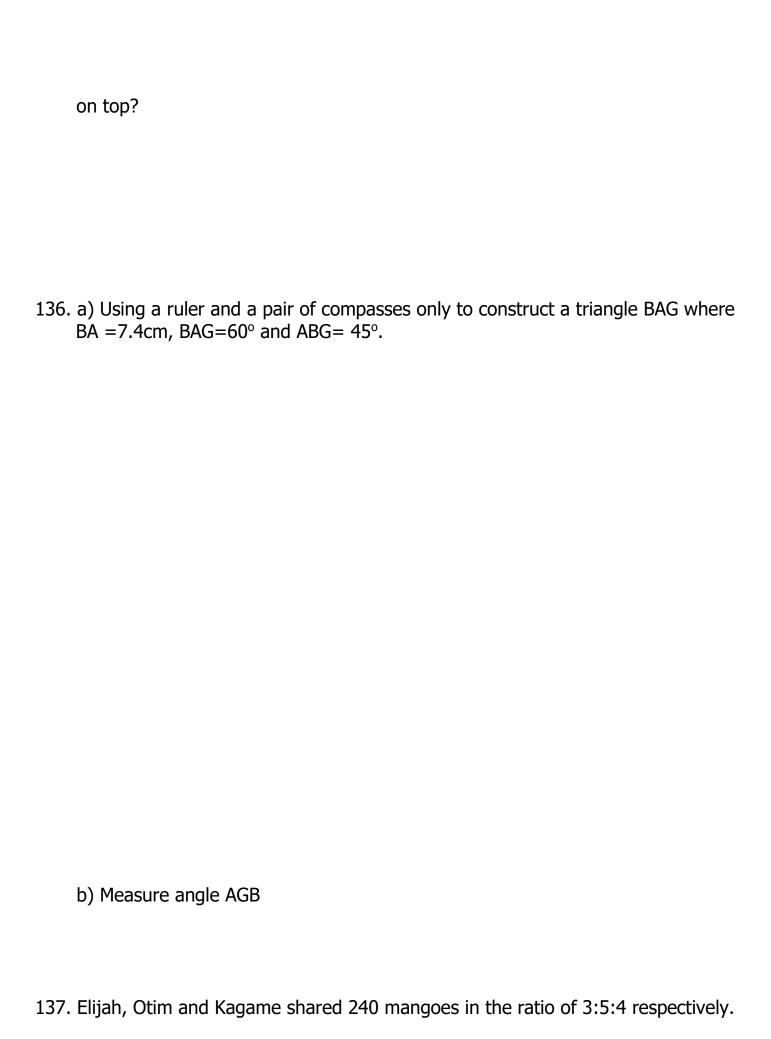

c) How many pupils scored above the average?

126. Solve: 3y - 5 = 4

131. Subtract 212<sub>three</sub> - 22<sub>three</sub>

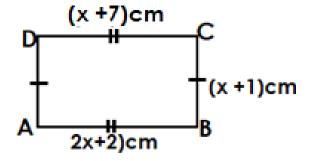

- a) How many mangoes did each get?
  - (i) Otim

(ii) Elijah

(iii) Kagame

## 138. Study the rectangle below and use it to answer the questions that follow.

a) Find the value of X.

b) Workout the actual length and width.

c) Find the area of the figure.	
d) Calculate the distance round the figure.	
139. Mr. Katubeho has 12 cows, 10 sheep, 8 rabbits and 6 goats. U 3.5cm to show the information on a pie-chart.	Jse a radius of

140. How many quarter litre bottles can be obtained from a 30 litre jerrycan?

142. Share shs.2400 in the ratio of 5:7

143. Express 3:20p.m. as 24hour clock time.

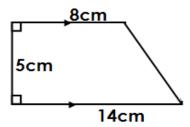

144. If 10% of a number is 60. Find the number.

145. A trader bought a radio at shs.15, 000 and sold it at shs.20, 000. Find his

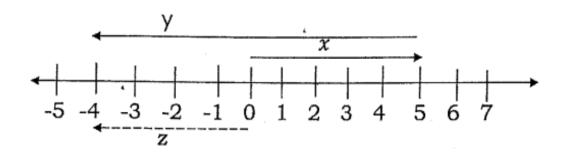

percentage profit.

146. Find the simple interest on shs.600, 000 at the rate of 15% per annum for  $1\frac{1}{2}$  years.

#### 147. Find the area of the figure below.

149. Use the number line below to answer the questions that follow.

- a) Write the integers represented by the arrows on the number line above.
  - i. x=\_\_\_\_
  - ii. y=\_\_\_\_
  - iii. z=
- b) Write down the addition mathematical sentence shown on the above number line.
- 150. Workout: -12 -4
- 151. Add: 212<sub>three</sub> + 12<sub>three</sub>

154. Solve: 
$$\frac{1}{3}$$
 y + 4 = 5

155. Two bells ring at an interval of 50 minutes and 30 minutes respectively in a certain school. If they first ring together at 9:10am, at what time will they ring together?

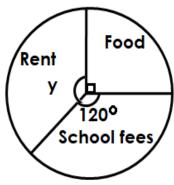

157. A maid bought 2kg of maize flour at sh.4000@, 1½kg of meat at sh. 12000 per kg, 500ml of milk at sh. 2000 per litre and 5 pumpkins at sh. 10,000. How much money did she pay altogether?

a) Write the base three number that is illustrated below.

b) Express the above number in base ten.

sh. 5,400,000

a) Find the value of y.

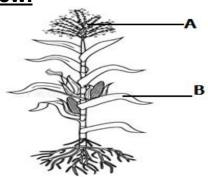

- b) How much does she spend on:i) School fees

  - ii) Food
  - iii) Rent
- c) Express the sector for school fees as a percentage.

### **INTEGRATED SCIENCE**

1.	Identify <b>one</b> way how babies acquire immunity.
2.	Why is carbondioxide used in fire extinguishers?
3.	Name the reptile that protects itself by changing colour.
4.	Why is a mushroom unable to make its food?
5.	State the addictive substance found in tobacco.
6.	In which way can wind as resource be useful to man?
7.	Why do we iron clothes before dressing up?
8.	How can <b>one</b> separate a mixture of seeds in fruit juice?
9.	Why should a pit latrine be constructed at least 30m from a water source?
10	.Why does a banana farmer cut the top of a sucker before planting it?
11	. Name the fungus used in fermentation.
12	. Give the collective name given to the three small bones in the ear.
13	i) Give one example of each of the following  a) physical change  b) chemical change  c) Biological change  ii) State one characteristic of a chemical change.
	he diagram below shows a maize plant. Use it to answer

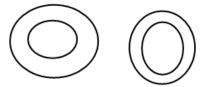

14.

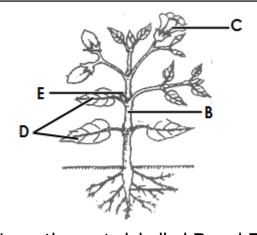

a) Na i) <b>A</b>	ame the parts marked <b>A</b> and <b>B.</b> (ii) <b>B</b>
,	hat type of root system does the plant above have?
c) Sta	ate the use of prop roots on such a plant.
5. How is	polio spread?
6. Write a	iny <b>one</b> animal fibre found in the environment?
7. How do	pes oiling prevent metals from rusting?
8. What is years?	s the best way of preventing <b>HIV/ AIDS</b> in young girls below 18
9. Why is night?	it not advisable to keep plants in the house where you sleep at
	Ice melting X
). In whic	ch state of matter is substance <b>X</b> ?
I. Identify	y the type of change shown by the diagram above.
2. At what	t age is the first dose of <b>DPT</b> vaccine administered to children?
•	e one example of each of the following groups of mammals.  mammal
(ii) poud	ched mammal
b) Give	one similarity between mammals and birds.
4.a) What	is sanitation?
b) Identit	fy the element of sanitation which helps in the proper disposal bish.

u,	) How can a P.6 child maintain the toilet at school?
25.	Study the diagram below of a seed. Use it to answer
	questions that follow.
	Seed seed
	a) How is the seed in the diagram above dispersed?
	b) Give a reason to support your answer in (a) above?
	c) Besides the above, mention one other method of seed dispersal.
	a) Write <b>two</b> materials used to extinguish fire caused by petrol. i) (ii)
t	o) Give a difference between a scald and a burn?
C	e) What First Aid can be given to a victim who has a burn?
	What First Aid can be given to a victim who has a burn?  Which main body part of an insect has breathing organs?
7.	·
	Which main body part of an insect has breathing organs?
27. 28.	Which main body part of an insect has breathing organs?  State the difference between <u>pitch</u> and <u>volume</u> of sound.

### 33. State the use of the blood cells shown in the diagram below.

34. Mention <b>one</b> result of not using birth control methods by married people.
35. Give the use of a lactometer to a dairy cattle farmer.
36. Why do health workers advise us to keep grass near our homes short?
37. Why should young children be given food rich in proteins.
38. Give <b>one</b> way in which boiled drinking water can get contaminated?
49. a) Give <b>two</b> materials from which organic fertilizers are obtained.  (i)
(ii)
b) State <b>two</b> bad effects of artificial fertilizers on the soil.
(i)
(ii)
40.a) Of what importance is part C to a plant?

D)	name the parts labelled <b>B</b> and <b>E</b> .
В	
E	

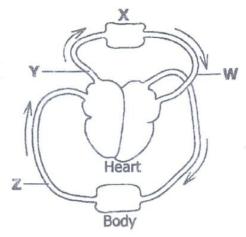

c) Apart from photosynthesis, give any other process that takes place in part ${\bf D}$ .
41. Of what value is a lateral line to a fish?
42. In the <b>ABC</b> strategy of controlling the spread of <b>HIV</b> , what does <b>A</b> stand for?
43. Name the process by which yeast turns fruit sugar into alcohol.
The diagram below is part of the human respiratory system.  Study it and use it to answer questions that follow.
44. Name the parts labeled  i) P ii) S
45. Why is the trachea made of cartilage ring?
46. How is part <b>P</b> adapted to its function?
47. What happens to the lungs when we breathe in?
48. Which immunisable disease affects the lungs?
49. Mention <b>one</b> source of heat.
50. Given the following organisms, <u>ferns</u> , <u>mosses</u> , <u>mushroom</u> and <u>liverworts</u> , identify and write the odd man out.
51. Why is it important to bathe daily?

### 52. The diagram below shows a germinating seed. Study it and use it to answer questions 5 and 6.

- 53. What type of germination is shown in the diagram above?
- 54. To which group of flowering plant does the germinating seed above belong?
- 55. How are the human kidneys important?
- 56. State the use of the six's thermometer.
- 57. State any **one** characteristic of seeds dispersed by wind.
- 58. State any **one** way in which animals, can be used as resource.

# 59. The diagram below shows blood circulating. Study and use it to answer questions that follow.

- 60. a) Name the organ marked with letter X.
  - b) Which blood vessel is marked with letter W.?

c) State the similarity between blood vessel <b>Y</b> and blood vessel <b>Z</b> .
d) Why does blood vessel <b>W</b> bring blood back to the heart?
61. a) Why is zero grazing method commonly used in urban / town areas?
b) Give <b>two</b> other advantages of zero grazing.  (i)
<ul><li>(ii)</li><li>c) In which <b>one</b> way is zero grazing a disadvantage in cattle management.</li></ul>
62.a) What is the use of each of the following tools in a cattle farm?  (i) <b>strip cup</b>
(ii) lacto meter
(iii) A burdizzo
(iv) drenching
63. Mention <b>one</b> example of a root tuber.
Martin went to the clinic and was given an envelope with drugs as shown below.  2 x 3
64.What does figure 3 represent?
65. How many tablets is he supposed to swallow in a day?
66. State the use of the six's thermometer.
67. In which state of matter is ice?

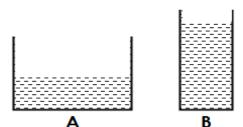

68. What disease is a child who shows the following signs and symptoms likely to be suffering from? bones showing under the skin, cries all the time, face looking like that of an old person, pot belly. 69. Write **one** example of a plant fibre. 70. In which way are the molar teeth adapted to crushing and grinding of food? 71. How does clearing bushes near our homes help to control malaria? 72. How is the life cycle of a cockroach different from that of a housefly? 73. What First Aid would you give to a child who has been burnt by hot porridge? 74. Why should the site of a bee hive be near flowering plants? 75.a) What causes cholera? b) How do people get infected with cholera? c) State any **one** sign of cholera. d) How can cholera be controlled? 76.a) What is the main product obtained from the animal shown below? b) Give a reason for your answer in question a) above. c) Write down **two** exotic breeds of cattle which are good milk producers.

77.	How best can a P.6 pupil protect oneself from contracting HIV/AIDS?
78.	Why is blood pumped to the lungs before it is circulated to other body parts?
79.	Where does the manufacture of each of the following blood cells take place?  i) red blood cells
80.	What determines the colour of blood?
81.	What role does the blood cell below play?
	nucleus
82.	Why are arteries thick walled?
83.	Why are the walls of the left hand side of the heart thicker than those of the right-hand side?
84.	Name the mineral necessary for the formation of blood.
85.	Give <b>one</b> structural difference between arteries and veins.
86.	Apart from <b>HIV/AIDS</b> and sickle cell disease, state <b>one</b> other disease of the circulatory system.
	Write <b>two</b> roles of blood plasma in the body.  (i)
88.	(ii)  How is the heart an important organ in the body?
89.	Name the method of preparing alcohol in which heat is involved.
90.	Why is alcohol called a drug?

91.	Name the drug that may cause impaired concentration and judgment in drivers leading to road accidents.
92.	How does alcohol cause dehydration in an alcoholic?
93.	How does living in the environment such as slums lead to alcoholism?
94.	Name the fungus that helps in the fermentation of alcohol?
The	e diagram below shows a method used to prepare alcohol. Use it
	answer questions that follow.
_	Name the processes that take place at A and B  Aii) B
_	) Why is the copper tube coiled at <b>B</b> ?  Why is the delivery tube made up of copper?
d)	Give the scientific name for liquid <b>Q</b> ?
e)	Identify the method of making alcohol shown above.
i) ii)	Give <b>one</b> use of alcohol  At home in the factory in the hospital
-	What is <b>immunity</b> ?

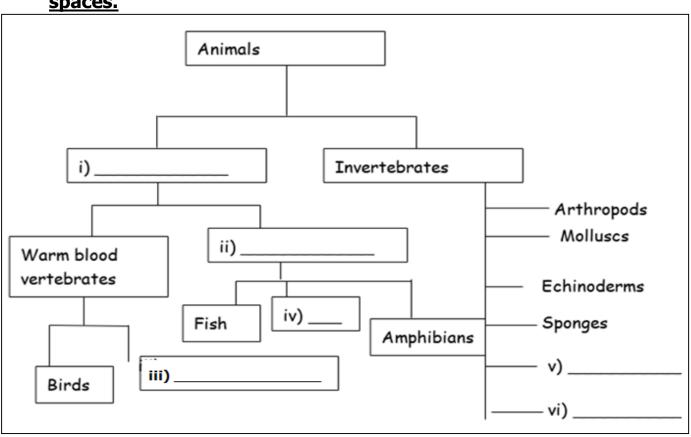

98.	Mention <b>one</b> way in which our bodies acquire immunity.
99.	State any <b>one</b> method of introducing vaccines in the body.
100	Name the childhood killer disease that can be got through drinking contaminated water.
101	. Why are vaccines given on different parts of the body?
102	. Name the disease whose vaccine is given at the age of 14 weeks.
103	. Why is <b>DPT</b> vaccine called a triple vaccine?
104	. What evidence is there to prove that a child is born with no immunity against tuberculosis?
105	. Why are girls above 15 years given <b>TT</b> vaccine?
106	. Apart from the infant killer disease, mention one other disease prevented by immunisation.
107	. What is heat?
108	. Mention <b>one</b> use of heat to man.
109	. What happens to the water when exposed to too much heat?
110	. State any <b>one</b> natural source of heat.
111	. How is <u>heat</u> different from <u>temperature</u> ?
<b>-</b>	

Equal volumes of hot water were put in containers of different sizes as shown below.

112.	In which container did the water cool first?
113.	Give a reason for your answer above.
114.	Mention any <b>one</b> process by which the water loses heat.
115.	State the use of the vacuum in a vacuum flask.
116.	Why do electric wires appear loose on hot sunny days?
117. -	What are vertebrates?
(	State <b>two</b> characteristics of vertebrates.
,	(ii) Why are people grouped under vertebrates?

# 120. Study the table below and complete it by filling in the blank spaces.

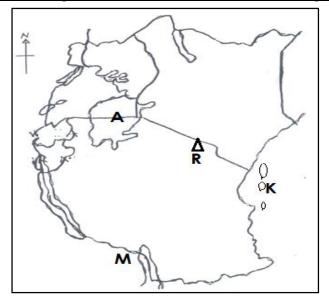

121.	What are homoiotherms?
122.	Name <b>one</b> group of vertebrate which is warm blooded.
	State <b>two</b> examples of scavenger birds. (i) (ii)
124.	(i) (ii) (ii) How are the birds mentioned in (123) above useful in the environment?
125.	Give a reason why birds have a streamlined body shape.
126.	What type of alcohol causes addiction when taken?
127.	How is zymase enzyme important in the making of alcohol?
128.	State <b>one</b> body organ damaged by alcohol.
129.	Mention <b>one</b> Ugandan law in alcohol management.
130.	State <b>one</b> reason why people drink alcohol.
131.	Give <b>one</b> use of alcohol in hospitals.
132.	Give <b>one</b> effect of alcohol to each of the following; i) to an individual
	ii) to a family
	iii) to the community
133.	State the part of air used by legumes to make proteins.
134.	What name is given to the male reproductive cells of a plant?
135.	Give the biological way of controlling pests in a store?
136.	State any <b>one</b> device used to reproduce stored sound.

137. Give any <b>one</b> principle of <b>P.H.C.</b>
138. State <b>one</b> viral disease in cattle.
139. In which <b>one</b> way is a bat similar to a housefly in terms of reproduction.
140. How does the washing of hands prevent food contamination?
141. Why should the legs of a victim who has fainted be raised?
142. What First Aid can be given to a person with fever?
143. a) Give the use of each of the following items when giving First Aid.  (i) stretcher  (ii) safety pin  (iii) plaster
b) Give a difference between a First Aid kit and a First Aid box.
144. i) Define the following terms:  (a) water contact diseases
(b) water cleaned diseases
ii) Identify <b>one</b> example of a water cleaned diseases.
145. The diagram below shows part of the digestive system in a human being. Use it to answer questions that follow.
a) Give the use of lipase enzymes produced by part L?

	b) Besides having villi, how else is the ileum adapted to its function of food absorption?
	c) What do we call the end product of protein digestion?
1.	SOCIAL STUDIES AND RELIGIOUS EDUCATION What is a family?
2.	State the title given to the political head of a country.
3.	Why do the Karimojong move from one place to another to get pasture and water for their cattle?
4.	Mention the physical feature that covers the largest part of East Africa.
5.	How do harsh weather conditions affect farming activities in Uganda?
5.	What is the duty of a <b>Chief Administrative Officer (CAO)</b> in a district?
7.	How does Kenya still benefit from Fort Jesus built at Mombasa?
3.	Give any <b>one</b> cause of famine in Uganda.
9.	Mention any <b>one</b> religion that existed in East Africa before the coming of Christian missionaries?
10	). Why did Allah create Adam?
11	.a) Write <b>NEMA</b> in full.
	b) Sate any <b>two</b> ways in which <b>NEMA</b> has helped our country Uganda.
	(i) (ii)

#### 12. Use the map of East Africa to answer questions 12.

- a) Name the country marked M.
- b) Why did H.M Stanley sail around Lake A?
- c) State the process of formation of the physical feature marked **R**.
- d) Which major cash crop is grown on Island **K**?
- 13.a) State the second greatest Commandment according to Jesus Christ.
- b) Give any **one** reason why a Christian should have a friend.
- c) State any **two** qualities of a good friend.
  - (i) \_\_\_\_\_
  - (ii)
- 14.a) What role does each of the following play in Islam:
- (i) A Muezzin
- (ii) An Imam?
- b) Give any **two** situations in which a Muslim is excused to offer prayers.
- (i) \_\_\_\_\_
- 15. How does the parliament of Uganda benefit the judicial organ of the government?

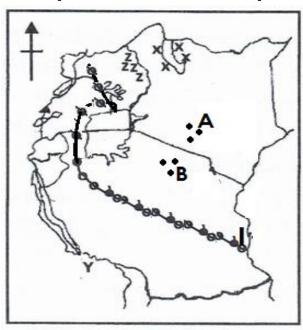

- 16. Mention any **one** way the collapse of the **EAC** in 1977 negatively affected the member states.
- 17. How do parents help to control the rate of child abuse in Uganda?
- 18. Why do areas near the Equator have higher temperatures in March and September?
- 19. What role do veterinary doctors play in the community?
- 20. State any **one** reason why the mineral resources are not fully exploited in East Africa.
- 21. Apart from mediating peace talks, how also do religious leaders promote peace in a country?
- 22. What name is given to the person in charge of elections at a polling station?
- 23. Name any **one** country that joined **EAC** in 2007.
- 24. Study the Uganda national flag below and answer the questions that follow.

- a) Name the colours marked by the letters A and B
- b) What does feature marked **C** on the diagram symbolize?
- c) How is the Uganda National flag treated on a national mourning?

- 25. State the importance of Palm Sunday to Christians.
- 26. State any **one** way you can relate well with others.
- 27. What term is used to mean ten percent of one's earning given to God in the church?
- 28. In which units are directions of places measured?
- 29. How has port Mombasa contributed to the development of import and export trade in Uganda?
- 30. Give **one** way civil wars in East Africa's neighbouring countries affect the people of East Africa.
- 31. Name the line of latitude which is 23.5°S.
- 32. Mention **one** way plateaus in East Africa support human activities.
- 33. How does increase in altitude affect temperature?
- 34. Write down **one** tribe that participated in slave trade in East Africa.
- 35. How was Fort Patiko helpful to Acholi?

#### Study the map below and answer questions that follow:

	Name the stone age sites marked;
	) <b>A</b> ii) <b>B</b> Why is town marked I remembered in the history of East Africa?
38.	State the reason the explorers who followed route continued their journey northwards from Lake Victoria.
39.	Which organ of the <b>East African community</b> runs the day to day activities?
40.	What measure can the government put in place to control population growth?
41.	Which method is used to mine crude oil?
42.	Give <b>one</b> reason why Lake Victoria has fresh water.
43.	How is altimeter important to pilots?
44.	State <b>one</b> reason for the coming of missionaries to Uganda.
45.	a) Mention <b>two</b> Christian religious organizations in Uganda.  (i)
b)	State <b>two</b> ways religious organizations have contributed towards the development of Uganda.  (i)
46.	(ii) What title is given to the political head of a district?
47.	Give <b>one</b> reason why Uganda is divided into districts.
48.	In which geographical location is Tanzania found?
49.	What are by-laws?
50.	Give any <b>one</b> reason why a community should have laws.
51.	State <b>one</b> advantage of decentralization policy.

b) Write any **two** types of sin.

(ii) \_\_\_\_\_

### Study the map below and answer the questions that follow.

53. Name the capital city of country marked <b>A</b> .	
54. Which cash crop is commonly grown in Island marked <b>Z</b> .	
55. Which ministry in Uganda is in-charge of creating more new distric	ts?
56. What is a municipality?	
57.a) Name any <b>two</b> major hills in Kampala.	
(i)(ii)	
b) On which hill do we find Muyenga water tanks?	
c) How do hills promote good communication network?	
58.a) What is sin?	

(i) \_\_\_\_\_

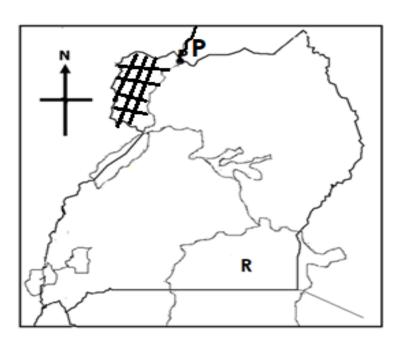

(i) \_\_\_\_\_

- 59. What is grid reference?
- 60. Name the major imaginary line which crosses Accra city in Ghana.
- 61. What title is given to the top administrative officer of KCCA?
- 62. How is Kampala city important to Uganda?
- 63. State **one** problem facing people living in towns.
- 64. How does a compass help to show direction of places?
- 65. Identify one group of people who use the instrument below.

- 66. How is the Prime Meridian important to people?
- 67. Which imaginary lines are also called parallels?

## Study the map below and answer the questions.

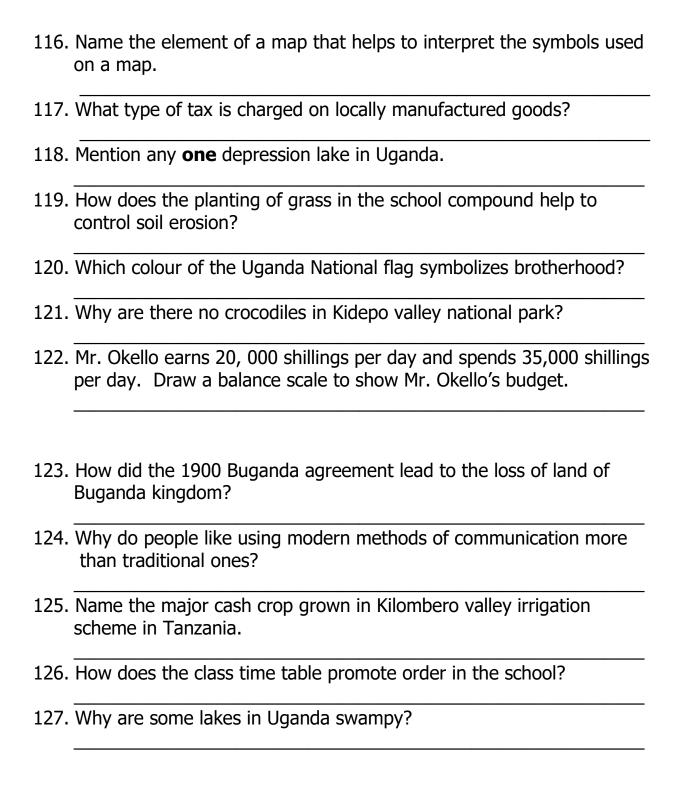

68. Name town marked <b>P</b> .
69. How was feature marked <b>R</b> formed?
70. Which cash crop is grown in the shaded region in the map?
71. The time in Accra-Ghana is 3:00pm. What time is it in Uganda?
72.a) What is a government?
b) Under which organ of government do civil servants belong?
c) Write any <b>two</b> duties of the president of Uganda.  (i)
(ii)
(i)
(ii)
76. Mention any <b>one</b> right of a citizen in Uganda.
77. Name the constitution that was promulgated on 8 <sup>th</sup> October, 1995.
78. What is a family budget?
79. Give <b>one</b> way in which a country can control its population growth.
80. State any <b>one</b> problem facing people living in urban areas.

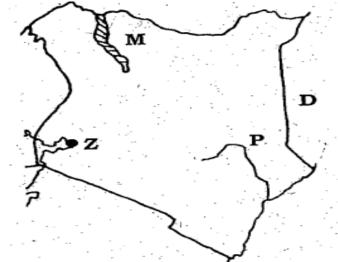

81.	What is the effect of sunny weather on Murram roads?
82.	How is the formation of Mt.Kenya different from that of Mt. Usambara?
83.	Name the lake in the Eastern arm of the rift valley famous for soda ash.
	a) Give any <b>two</b> problems faced by the people who live in North Eastern Kenya.  (i)
,	b) How does wind influence the climate of an area?
	c) Why are most roads in rural areas not tarmacked?

	b) What role did <b>Captain Fredrick Lugard</b> play in establishing colonial rule in Uganda?
	c) Give <b>one</b> reason why <b>Omukama Kasagama</b> welcomed the British colonial administration to his kingdom.
86.	a) Which sacrament brings Christians together with the living Christ in the church?
I	b) State any <b>one</b> way one can avoid temptation.
(	a) Mention any <b>two</b> groups of people who should receive zakat.  (i)
l	b) Why should able Muslims pay zakat?
88.	Why does River Nile flow northwards?
89.	Name the instrument used to measure Altitude.
90.	Give <b>one</b> reason why Lake Katwe is important to economic development of Uganda?

91.	Which forces are responsible f features;	for the formation of the fo	llowing physical
	<ul><li>a) Rift valley lake</li><li>b) Block mountain</li></ul>		
92.	How can the problem of poor tareas?	transport network be solve	ed in mountainous
93.	Which form of energy is got from	om hot springs?	
94.	How does Mt. Elgon influence	the activities of people are	ound it?
95.	Define the following terms a) Delta		
	b) Confluence		
	c) Tributary		
	d) Distributaries		
96.	How was Mary the potter relat	ted to Jesus Christ to the I	Holy Bible?
97.	Give <b>one</b> way churches beneficongregational prayers?	it from big numbers of peo	ople who come for
98.	How was <b>POTAPHAR</b> in Egyp	t helpful to Joseph the so	n of Jacob?
99.	How important is <b>UJCC</b> to Chr	ristians in Uganda.	
100	). How does a map differ from a	a picture?	
101	L. What problem will Geoffrey fa	ace when he uses a map	without a title?
102	2. Draw a map symbol of the	e following	<del> </del>
	i) Mountain	ii) Mountain peak	

103.	Give any <b>one</b> way a civil war in one of Uganda's neighbours can affect Ugandans.
(	Give any <b>two</b> reasons why map symbols are used on a map.  i)ii)ii)ii
105.	Why do areas near equator receive high temperature?
	Mention <b>two</b> reasons why Uganda should cooperate with her neighbours.  (i)
107.	The distance from Mbrarara to Lyantonde is 30km. Using the scale 1cm represents 5km. Workout the distance on a map.
108.	What is a latitude?
109.	State any <b>one</b> month when the sun is overhead the equator.
110.	Why is the prime meridian sometimes called Greenwich meridian?
111.	Identify the capital cities of Uganda's neighbours in the following directions.  a) East b) North
	c) <b>West</b>
1	12. How was Mary the potter related to Jesus Christ to the Holy Bible?
13	13. Give <b>one</b> way churches benefit from big numbers of people who come for congregational prayers?
13	14. How was <b>POTAPHAR</b> in Egypt helpful to Joseph the son of Jacob?
1	15. How important is <b>UJCC</b> to Christians in Uganda.

# 128. Study the map of Kenya below and answer the questions that follow.

a) Name the river marked <b>P</b> .	
b) How was the lake marked with letter <b>M</b> formed?	
c) How does Kenya benefit from the country marked <b>D</b> ?	
d) Name any one importance of the inland port <b>Z</b> .	
129. "It is not good for a man to live alone; I will make for him	a
suitable companion" (Genesis 2:18)  a) Who said the above words?	
<ul> <li>a) Who said the above words?</li> <li>b) To whom were the above words said?</li> <li>c) Name the two sons of Adam and Eve before Seth was born. <ul> <li>(i)</li></ul></li></ul>	
<ul><li>a) Who said the above words?</li><li>b) To whom were the above words said?</li><li>c) Name the two sons of Adam and Eve before Seth was born.</li></ul>	
<ul> <li>a) Who said the above words?</li> <li>b) To whom were the above words said?</li> <li>c) Name the two sons of Adam and Eve before Seth was born. <ul> <li>(i)</li></ul></li></ul>	_

133. Besides tourism, mention any other two invisible exports from

(i) \_\_\_\_\_(ii) \_\_\_\_\_

Uganda.

134.	Why is tourism called a service?
135.	Why is crop growth not possible on top of mountain Rwenzori?
136.	Give a reason why the wind ward side of a mountain has thick vegetation?
137.	Mention any three factors affecting vegetation distribution.  (i)
138.	(iii)
139.	Give a reason why crocodiles are found in Murchison falls National Game Park and not Kidepo Valley Game Park.
140.	Name the smallest game park in Uganda.
(	Why do trees in tropical rain forests;  (i)Grow tall
	How are saints remembered in Christianity?
143.	Name the apostle of Jesus Christ who became the leader of the church after ascension of Jesus?
144.	What is authority in Christianity?
145.	What are natural resources?

146. Which product is obtained from the following minerals:
(i)Limestone (ii) Phosphates
(iii) Salt
(iii) Salt (iv) Crude oil
147. Name two economic importance of mining to Uganda.
(i)
(ii)
148. Why is land regarded as the most important resource?
149. State any one way people make use of natural resources.
150. How is the water hyacinth a problem to the fishing industry?
151. How do natural resources influence the climate of an area?
152. Draw the following map symbols.
a) A mine b) A quarry
153. Which method of mining is used to mine:  a) mineral near the ground  b) Crude oil
154. Give the difference between a fisherman and a fish monger.
155. Which Authority is possessed by the following people in our community?  a) Prefects
D) BISNOPS
156. State any two ways leaders misuse their Authority in our community.
(i)
(ii)

157.	Which king of Buganda welcomed the first Arabs to Buganda kingdom?
158.	What was long distance trade?
159.	Which contribution was made by Nanji Khalidas Mehta towards economic development of Uganda?
160.	How did missionaries benefit from the activities of IBEACo?
161.	What was the equatorial province?
162.	Give two reasons why Kabaka Mutesa I invited missionaries to Uganda.  (i)
163.	(ii)
	Write one correct sentence about each of the following missionaries.  ) Dr. Albert Cook
b)	Bishop Hannington
c)	Kenneth Borup
d)	Alexander Mackey
e)	Apollo Kivebulaya
165.	Which African country tried to colonize Uganda?
166.	Why did the above country try to colonize Uganda?
167.	How did the construction of the Uganda railway help in ending slave trade?
	<del></del>

<ul><li>168. Which sacrament helps one to;</li><li>a) Enter God's family</li></ul>	
b) Unites a man and a woman as husband and wife	
c) Initiates Christians into priesthood	
d) Strengthen the faith of Christians	
169. Which land form covers most parts of Uganda?	
170. Mention <b>one</b> climatic condition that favours dairy farming on the Kenya Highlands.	
171. State the meaning of the black colour on the National Flag of Ug	anda.
172. What is a republic?	
173. Other than promoting trade, state any <b>one</b> other duty that was carried out by <b>IBEACO.</b>	
174. Draw a map symbol of a circular table.	
175. How does altitude affect human settlement?	
176. Given that the time at G.M.T is 6:30a.m. What time will it be at a place 45° west?	1
177. Why do Christians fear death?	
178. According to Islam, who is believed to have been the first Prophe	 et?

	A	В
a)	1890 Anglo-German Agreement	Introduced taxes to Buganda
b)	1955 Namirembe Agreement	Found a peaceful way of dividing up into colonies.
